Manual for Private & Out-of-Province Organizations

Applying for Ministerial Consent under the *Post-secondary Education Choice and Excellence Act, 2000*

This *Manual* is a guide for private organizations seeking consent of the Minister for a new program or consent renewal for an existing program pursuant to the *Post-secondary Education Choice and Excellence Act, 2000*. It outlines

- the mandate of the Postsecondary Education Quality Assessment Board (PEQAB)
- PEQAB's criteria and procedures for review of applications for consent to offer or advertise all or part of degree programs in Ontario or to use the term "university" in Ontario and
- instructions on what to include in a submission to the Board.

The preparation of this *Manual* has benefited from the advice and work of

- many Canadian quality assurance bodies other accrediting and quality assurance bodies, including the Ontario Universities Council on Quality Assurance (OUCQA), the Ontario College Quality Assurance Service (OCQAS), the Campus Alberta Quality Council (CAQC), the British Columbia Degree Quality Assessment Board (DQAB), the Maritime Provinces Higher Education Commission (MPHEC), the Saskatchewan Higher Education Quality Assessment Board (SHEQAB)
- regional accrediting bodies in the United States
- the European Association for Quality Assurance in Higher Education (ENQA) and its European Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG).

We are also grateful to the many stakeholders and other interested parties who contributed their comments during the preparation of this *Manual*.

Applicants should note that the Board may revise its documents from time to time, and the onus is on the applicant to ensure that it is using either of the then current versions of the *Manuals* with the Board's policies and criteria.

Inquiries about the Board's criteria or procedures should be directed to:

Postsecondary Education Quality Assessment Board Secretariat

Telephone: 416-212-1230
E-mail: peqab@ontario.ca
Web: <http://www.peqab.ca>

Applications for the Minister's Consent

Under the terms of the *Post-secondary Education Choice and Excellence Act, 2000*, the consent of the Ontario Minister of Colleges and Universities is required for anyone seeking in Ontario, either directly or indirectly, to

- grant a degree
- provide a program or part of a program of postsecondary study leading to a degree to be conferred
- advertise a program or part of a program of postsecondary study offered in Ontario leading to a degree conferred
- sell, offer for sale or provide by agreement for a fee, reward, or other remuneration, a diploma, certificate, document, or other material that indicates or implies the granting or conferring of a degree
- operate or maintain a university
- use or be known by a name of a university or any derivation or abbreviation of a name of a university
- hold oneself out to be a university
- make use of the term "university" or any derivation or abbreviation of the word in advertising relating to an educational institution in Ontario.

The Minister of Colleges and Universities may refer applications for consent to PEQAB or to another accrediting or quality assurance body (as prescribed in regulation), reject an application without referral to PEQAB (or other body) according to prescribed circumstances and policy criteria, consider a prior quality assurance review as satisfying the requirement that the application to be referred, and deem approval by such a body as satisfying the requirement that the Minister receive a recommendation.

This *Manual* addresses only the Board's criteria and processes for the review and recommendation of applications referred to it by the Minister. Inquiries about the application and consent process, the Act and its regulations, the activities subject to the Act, and the Minister's requirements should be directed to the Universities Unit of the Postsecondary Education Division, Postsecondary Accountability Branch, Ministry of Colleges and Universities: PostsecondaryAccountability@ontario.ca

1. Introduction

1.1 Quality Assessment in Context

Prior to 1983, there was no Ontario legislation preventing any organization from offering degree programs, granting degrees, or calling itself a university. Traditionally, degree granting authority was based in a royal charter or provincial statute.

From 1984 to 2001, the *Degree Granting Act*¹ set conditions under which degrees were granted and degree programs offered in Ontario. Under the *Degree Granting Act*, an Ontario-based institution required an act of the Legislative Assembly of Ontario to grant degrees, offer programs leading to a degree, call itself a university, or advertise using the word “university.” The *Degree Granting Act* also provided that an out-of-province institution required consent from the Minister to undertake similar activities in Ontario.

The *Post-secondary Education Choice and Excellence Act, 2000* (the Act) permits the granting of degrees or operation of a university either by an act of the Legislative Assembly of Ontario or with the consent of the Minister of Colleges and Universities. The Act also sets out the responsibilities of the Postsecondary Education Quality Assessment Board (PEQAB), which makes recommendations to the Minister on applications for Ministerial consent under section 7(3) (a) of the Act.

1.2 Provincial, National and International Collaboration

PEQAB is a leader within Canada in setting the standards for the quality assurance of degree programs and institutions. PEQAB introduced the first qualifications framework in Canada in 2002, adapted with permission from a framework developed by the Quality Assurance Agency for Higher Education (QAA) in the United Kingdom. Qualifications frameworks are descriptions of the generic knowledge and skills each credential or qualification (e.g. certificate, diploma, bachelor’s degree) is intended to achieve. They serve a number of purposes, including acting as a standard for quality assurance. The Board requires that samples of student work in the terminal phase of every program are assessed to ensure that the knowledge and skills identified in the framework are being achieved.

PEQAB continued to develop its framework which was adopted, with minor modifications, for the review of undergraduate and graduate programs offered by Ontario public universities. Subsequently, the PEQAB Secretariat led a ministry-wide initiative to develop a framework of all postsecondary qualifications offered in Ontario. The Ontario Qualifications Framework (OQF) is the only framework in Canada that includes all postsecondary education credentials, from certificates to doctoral degrees.

In April 2007, the Council of Ministers of Education Canada (CMEC) endorsed the *Ministerial Statement on Quality Assurance of Degree Education in Canada*. The Statement contains

¹ Degree Granting Act, 1983, c.36, as rep. by *Post-secondary Education Choice and Excellence Act, 2000*, c. 36

- a Degree Qualifications Framework that describes the knowledge and skills expected of graduates holding degrees at the bachelor's, master's and doctoral levels
- standards and procedures for reviewing decisions to establish new degree granting organizations
- standards and procedures for reviewing proposals for new degree programs.

The framework and standards in this *Statement* have their origins in the PEQAB framework, and the Degree Level Standards, dimensions of knowledge and learning outcomes are identical to those for degrees on the OQF.

PEQAB is also a key participant in international quality assurance, especially through its participation in the International Network for Quality Assurance Agencies in Higher Education (INQAAHE)—an international network of approximately 200 organizations active in the theory and practice of quality assurance in higher education – and the Council for Higher Education Accreditation International Quality Group (CIQG) – a forum for postsecondary institutions, accrediting and quality assurance organizations, higher education associations, governments, businesses, foundations, and individuals to address issues and challenges for quality assurance in an international setting. In addition, PEQAB has raised its international profile by

- publishing articles and presenting research findings on contemporary topics in quality assurance at national and international conferences
- engaging in collaborative research activities with international colleagues as well as at Ontario postsecondary institutions.

PEQAB has played a leadership role in quality assurance in Ontario, in Canada, and internationally. Although the Board's roots are local, its work is consistent with the trend toward the harmonization of postsecondary educational standards manifest in other jurisdictions.

By ensuring its Standards reflect recognized practice, PEQAB

- facilitates comparative quality assessment
- facilitates lifelong learning by documenting the standards students have met and the outcomes they have achieved
- facilitates labour mobility
- facilitates credit transfer and recognition
- fosters accountability by requiring institutions to articulate standards and outcomes
- ensures graduates possess knowledge and skills necessary for employment and further study
- ensures that students and society are served by programs of assured quality.

2. The Postsecondary Education Quality Assessment Board

Established in 2000 and continued under the *Post-secondary Education Choice and Excellence Act, 2000* (the Act), the Board is composed of a chair appointed by the Lieutenant Governor in Council, a vice-chair and up to nine other members appointed by the Minister. The Board makes recommendations to the Minister of Colleges and Universities concerning applications for Ministerial consent under the terms of the Act and other matters pursuant to the Act referred to it by the Minister.

2.1 Responsibilities and Legislative Requirements

Under sections 5 and 7 of the Act, the Board is responsible for

- reviewing all applications referred under the Act for Ministerial consent
- creating External Expert Review Panels and committees
- undertaking research to assist in the Board's work
- providing recommendations to the Minister
- addressing any other matter referred to it by the Minister.

In making its recommendations to the Minister, the Board establishes the criteria and processes for the review of applications. Pursuant to the Act, PEQAB criteria are required to be in accordance with educational standards recognized in Ontario and other jurisdictions and to comply with policy directions given by the Minister.

2.2 Vision and Values

A stronger Ontario through high quality postsecondary student learning outcomes.

To achieve its vision to inspire excellence in education through leadership in quality assurance and enhancement, the Board embraces as values, being

- accountable
- transparent
- impartial
- collegial
- dedicated to quality and continuous improvement
- grounded in research, evidence and best practice.

2.3 Board Meetings

Organizations wishing to forward information or materials to the Board must do so through the Secretariat, the Chief Executive Officer of which serves as secretary to the Board. Board meetings usually occur monthly with dates posted on the website (www.peqab.ca/MeetingDates.html). In some situations, the Board will hold additional meetings to ensure the timely processing of applications. Board meetings are held *in camera* and Board members respect the confidential nature of documents, information and records, and restrict the use of this information to their work as Board members.

2.4 Secretariat

The Board is supported by a Secretariat. Among other responsibilities, the Secretariat undertakes research, drafts the Board's criteria, policies, and procedures and coordinates the Board's relations with Ministry officials and regulatory bodies. Each application for Ministerial consent is managed by a member of the Secretariat who assists the applicant organizations and External Expert Review Panels in understanding the Board's criteria and procedures to facilitate the comprehensive review of applications.

2.5 The PEQAB Website

The Board is committed to transparency and maintains the following on its website:

- a list of current Board members, their terms of office, and brief biographies
- the Board's mandate, meeting procedures, and policies
- PEQAB publications (such as *Manuals* and annual reports)
- an overview of the consent process
- contact information for the PEQAB Secretariat
- information about relevant legislation, regulation, and pertinent contextual information (e.g. the *Minister's Guidelines and Directives for Applying for a Ministerial Consent*)
- links to national and international quality assurance bodies
- information about applications, including portions of the application, the Board's recommendation and recommendation date, and the Minister's decision.

3. Procedure for Review and Recommendation

3.1 Application Fees

As per the Minister's requirements, separate application fees and Review charges are payable for each program or part of a program for which the Minister's consent is requested, including applications to renew existing consents. For example, a request for consent to offer degree programs leading to a Bachelor of Business (Human Resources Management), a Bachelor of Journalism, and a Bachelor of Technology (Landscape Architecture) constitutes three applications and requires three application fees (and three separate sets of Review charges, as outlined below).

The application fee, as determined by the Ministry, is \$5,000 per application for a new program from Ontario's public institutions while the application fee for new programs by private institutions and public-out-of-province providers is \$25,000. The application fee for program renewals is \$5,000 regardless of the applicant type. An institution is invoiced the application fees and Review charges once the Ministry refers it to PEQAB for quality assurance review.

Applicant organizations can also bundle closely related study programs in a cluster at the time of application. This allows for bundled assessments which reduce the costs and time for Reviews of related programs. For example, Bachelor of Commerce programs with different concentrations (such as Human Resources, Supply Chain Management or Accounting) can be submitted as one application. All programs within the cluster are then reviewed by the same group of External Experts with expertise in each of the programs. This procedure also makes it easier to account for common features shared by several study programs.

If you plan to submit programs as a cluster, the programs should be related, and a common Review Panel and site visit should be feasible. The opportunity for cost savings pertaining to the applications fees for cluster/bundled applications, however, requires a conversation with PEQAB prior to submission to determine whether there is enough commonality between the programs for the synergies of a joint Review.

3.2 Review Charges

Applicant organizations are responsible for paying the costs of Reviews carried out by the Board and will be invoiced for the estimated cost of each Review. A deposit in the estimated amount must be received prior to the commencement of Review activities. The Ministry will invoice the applicant organization for the balance of any unpaid costs or refund any balance owing to the applicant organization, after the Review. The Minister's decision will normally be available to the applicant organization only after all accounts are settled.

The charge for Reviews varies with each application depending on the number of reviewers, the length and complexity of the review, any associated travel, accommodation, meeting or communication costs, and whether the applicant organization's response to the Panel Report requires further Review. Review costs for on-site reviews will not normally exceed \$7,500 for an Organization Review and will normally range between \$7,000 and \$11,000 for an individual Program Review. The costs for virtual site visits are usually slightly lower as travel cost are no longer incurred by the Review Panels.

3.3 The Board's Procedures

This Chapter of the *Manual* includes a flowchart that outlines the process for reviewing an application for consent to offer a degree program. Chapter 4 describes the submission and mailing instructions, while Chapters 5 and 7 describe the review processes.

Chapters 6 and 8 describe the Standards for Organization Reviews (6) and Program Reviews (8) as well as documentation commonly submitted for both kinds of Reviews. The process for requests for other forms of Ministerial consent (e.g., to use the term "university", addressed in Chapter 9 and 10) varies according to the complexity of the application.

3.4 Review Processes

New Programs and Regular Program Renewals

New programs and regular program renewals undergo a full regular Review by PEQAB as follows: The Board receives the application, posts it on its web site, gives a deadline for public comment, and strikes an Organization Review Panel **and** an External Expert Panel, as appropriate and with input from the applicant. The applicant is then informed of the composition of the Panel(s) and is advised of any site visits. Suggested agenda templates for the PEQAB on-site and virtual site visits can be found in **Appendix 12.1**.

Both the External Expert Review Panel and the Organization Review Panel undertake Reviews in accordance with the Board's detailed procedures (as per the *Guidelines for External Expert Reviewers/Organization Reviewers*) and these typically file their Reports within 15 days of the site visit(s). Applicant organizations will normally submit to the Board their formal Response to the Panel Reports within 20 business days (4 weeks) of receiving it. Representatives of applicant organizations may notify PEQAB of the need for an extension on any reasonable basis, including but not limited to, the unavailability of relevant staff to consult on the Response, the complexity of the Response, or the number of items requiring response.

Expedited Renewals

In addition to PEQAB's regular process for quality assurance in the context of consent renewals, PEQAB offers an expedited renewal process. This streamlined process emphasizes PEQAB's observa-

tion of an institution's implementation of the Internal Quality Assurance and Development Standard. The main addition is that a PEQAB Senior Policy Advisor attends the site visit with the institution's own Program Evaluation Committee. Please consult the *Expedited Renewal Process Manual* for details on the eligibility and submission requirements for the Expedited Renewal Process.

Any institution planning to undergo the Expedited Renewal Process for one of its programs should notify the PEQAB Secretariat that it wishes to use Expedited Renewal. The Secretariat/the Board will then determine eligibility of a program for the expedited consent renewal based on the following criteria:

1. The size of the institution, including the number of degree programs.
2. The experience in offering degrees in Ontario i.e. the length of time that a degree program or programs have been offered.
3. The track record of the program/institution with PEQAB i.e. past conditions of consent or other official concerns.
4. Other external quality assurance measures that the programs/institutions are required to go through and the overlap with PEQAB's criteria and processes, including accreditation of programs in regulated professions as well as other external quality assurance and accreditation agencies.

3.5 Transparency of Review Documents

Review Documents Posted to PEQAB Website

New Programs

For each new program submission PEQAB posts on its [website](#) the full application submitted by a postsecondary institution, with the exception of proprietary and personal information such as faculty CVs.

Renewals

For each application to renew consent, PEQAB posts only the application letter from the institution to the Minister, a program abstract and the program course schedule.

PEQAB Final Reports

The PEQAB Final Report² will be shared with the

- the applicant institution
- the External Expert Review Panel for that particular application and
- the Minister/Ministry immediately after the meeting at which the Board approves its recommendation to the Minister.

A PEQAB Final Report will reflect the External Expert Review Panel's findings, the institution's subsequent responses and commitments as well as the Board's final recommendation. Sharing the PEQAB Final Report with the institution provides greater transparency in terms of the Board's decisions and

² The PEQAB Final Report comprises the short recommendation to the Minister that is posted on the PEQAB website after the Minister has made a decision about consent and a detailed report about the review and the Board's consideration thereof.

rationales, as well as greater opportunity for the applicant institution to improve the degree program.

3.6 Opportunity for Applicant Comment

The applicant organization will have an opportunity to provide further information if the application is found to be incomplete, to provide a Response to the Panel Report, as well as a Response to any comment from any third party public comment in accordance with section 3.7 below.

Applicant organizations will normally submit to the Board a formal Response to the Panel Report within 20 business days (four weeks) of receiving it. Representatives of applicant organizations may notify PEQAB of the need for an extension on any reasonable basis, including but not limited to, the unavailability of relevant staff to consult on the Response, the complexity of the Response, or the number of items requiring response.

3.7 Opportunity for Public Comment on Applications

At the time an application is submitted, the Board will post it on its website for 30 days indicating a deadline for comment on the application from interested parties. The Council of Ontario Universities (COU) and the Ontario College Quality Assurance Service (OCQAS) are normally notified via email regarding new application(s).

Comments will proceed as follows

Type of Comment	Procedure
Comments bearing on matters of public policy	<ul style="list-style-type: none">• PEQAB Secretariat forwards comment to the Universities Unit (Postsecondary Accountability Branch)• Universities Unit considers the comment(s) as part of the standard public policy review conducted for each consent application
Comments bearing on the review of the application against the Board's criteria	<ul style="list-style-type: none">• PEQAB Secretariat shares comment(s) with the External Expert Review Panel (EERP) and the applicant for consideration• Any response from the applicant is shared with the EERP through the PEQAB Secretariat• EERP reviews any such comments as part of the regular review and may address them in the Panel Report

Please note that while no information about the review of any public comments will be shared back with the commenting party, the completed Panel Reports and any materials received in relation to an application may be publicly requested under the Government of Ontario's *Freedom of Information and Privacy Protection Act*.

3.8 Withdrawal of an Application

If an applicant organization wishes to withdraw an application during the process, the applicant must send written notice to the Minister with a copy to the Board.

The Board will post information about applications on its website, as indicated above, and report on the final status of each application including the status of “Withdrawn.” All materials and reports received in relation to an application may be subject to the *Freedom of Information and Protection of Privacy Act*.

3.9 Deemed Withdrawal from PEQAB Consideration

At the option of PEQAB, an application may be considered inactive and will be withdrawn from Board consideration if a period of six (6) months has elapsed during which there has been no communication from the applicant, despite the need for such communication in order to move the Review forward. The beginning of this period will be marked by the most recent date of correspondence from the applicant to the Secretariat. The application will then be marked on the PEQAB website as “Withdrawn.” Failure to pay application fees and/or Review charges may also result in an application being marked as “Withdrawn.”

3.9 Reconsideration of a PEQAB Recommendation

Any institution with a proposed PEQAB recommendation for denial of consent, a shorter than usual length of consent, and/or with conditions of consent attached may apply for reconsideration of that recommendation prior to the recommendation being sent to the Minister.

After each PEQAB Board meeting, the PEQAB Secretariat will share with the applicant institutions and the related External Expert Review Panel the PEQAB Final Report. The PEQAB Final Report incorporates the Board’s recommendations as to the length of consent, any conditions of consent or denial of consent, along with selected External Expert Review Panel conclusions and comments. It also incorporates selected institution responses. This communication with the applicant will occur prior to PEQAB sending its Final Report to the Minister. Specifically, the following recommendations by PEQAB are subject to reconsideration:

- a. conditions of consent
- b. the length of consent, and/or
- c. denial of consent.

Request for Reconsideration

Applicant institutions will be given up to ten business days to provide to the Secretariat notice in writing (normally via email) for a reconsideration of any aspect of the recommendations stated above.

This applicant institution's notice should clearly state which portion(s) of the Board's recommendation are to be reconsidered and the reasons for the reconsideration. An additional 20 days will then be given to the applicant to finalize its submission for Reconsideration. Changes made since the institution's Response to the original Panel Report will, however, not be considered. If the applicant waives reconsideration or if a response to the Secretariat's query is not received within this 20-day period, the Board will forward its recommendation to the Minister.

Evaluation by a Neutral Third-Party Panel

To conduct the evaluation, the Board and the applicant institution will agree on an independent External Expert Review Panel to re-evaluate. Normally, this Panel will comprise two persons taken from the previously agreed upon list of External Expert Review Panel candidates. In no case shall parties be appointed who were involved in the Review being reconsidered, and in no case will Panel members be appointed who are not acceptable to the institution. (In the case of an impasse on the two-member Panel, a third member would then be appointed, according to the same process as the two original members.)

The Panel will receive all documents concerning the program that were available to the initial External Expert Review Panel as well as the institution's initial Response and its submission for re-evaluation. No additional material will be available to or considered by the Panel. The Panel will make one of the following evaluations to the Board:

- a. that the Board's original recommendation be affirmed
- b. that the Board's original recommendation be modified or
- c. that all or some of the recommended conditions of consent in the original recommendation be eliminated.

The evaluation of the Panel will be sent to the applicant and the Board in a written report that conveys the basis of the evaluation. The evaluation of the Panel will then be considered by the Board at its next scheduled meeting, and the Board may revise its recommendation to the Minister accordingly. The evaluation by the Panel is not binding on the Board.

Costs

Regarding the evaluation of the neutral third-party if

- the original PEQAB recommendation is affirmed, costs are charged against the applicant
- the recommendation is modified or recommended conditions of consent are reversed, costs are charged against PEQAB
- the recommendation is affirmed in part or reversed or modified in part, costs are shared proportionally between the applicant and PEQAB.

3.10 Integrity of the Process

Organization's Obligations

To protect the integrity and confidentiality of the application and review process, applicant organizations should not attempt to discuss their applications with Board members. In response to an applicant's attempt to lobby Board members, the Board may cease its Review of the application and notify the Minister accordingly.

As regards the submission of course schedules and the assignment of named instructors with specific qualifications to each of the course sections, PEQAB's expectations are the following. The Board understands that for both initial consent and renewal of consent, the assignment of instructors is inevitably future-directed and prospective. Individuals who have taught the various courses in the past may be the organization's best available indicator, but the Board understands such assignments as commitments for the future. That said, the Board anticipates that the organization has a good faith belief that the individuals it names against each course section are available to teach these courses going forward, either in general or for at least the next year. Further the Board considers that these named instructors are, at a minimum, validly representative of (other) individuals holding the same level of qualification whom the organization intends to make available to teach these courses, whether through replacement, additional hires or by other means.

In general, the External Expert Review Panel Reports are to be treated by the organization as confidential to the organization and the Ministry. This requirement of confidentiality should not be interpreted so as to limit the organization's internal consultations, either as regards the draft stage at which the organization's Response is sought, or at the final stage at which the organization is implementing or revising the degree program in response to a new or renewed consent. Specifically, it is PEQAB's expectation that External Expert Review Panel Reports are to be shared with all faculty, staff, students and administrators involved in the Program Review, so that the most informed Response, at the draft stage, and the fullest implementation of conditions and commitments, at the final stage, can be delivered by the organization.

Board Members' Commitments

Members are committed to the principles and practices of quality assurance in postsecondary education and adhere to PEQAB's values. Board members make decisions on the merits of each application referred to them, and consider the information provided in good faith and to the best of their abilities, not being concerned with the prospect of disapproval from any person, institution, or community. In addition, all members of PEQAB commit to the following.

Confidentiality

- Discussion in PEQAB meetings or committees is kept in confidence.
- Members do not discuss individual submissions outside the Board's deliberations.
- Members employed by or associated with (or formerly employed by or associated with) a post-secondary institution do not represent their home institution.
- Members do not report to their home institution on confidential information of any type about another institution, nor do they report on decisions regarding their home institution unless those matters are in the public domain.

- Members respect the confidential nature of documents, information, and records received as Board members, and restrict the use of this information to their work as Board members.
- Members adhere to the intent and requirements of Ontario's *Freedom of Information and Protection of Privacy Act, 1990*, which applies to all information, material, and records relating to, or obtained, created, maintained, submitted, or collected during a Review.

Communication

- Members do not make public statements on any issues that are currently under consideration by PEQAB or the Minister.
- Members refrain from communicating with the media regarding the deliberations or recommendations of PEQAB unless designated to do so by the Chair.

Avoidance of Personal Gain

- Members do not take improper advantage of information obtained through their official duties as PEQAB members.
- Members do not engage in conduct that exploits their positions as members.
- Subject to the Conflict of Interest Guidelines for Board Members, members do not accept money, awards, or gifts from persons who may be, or have been, affected by a PEQAB decision.

Impartiality

- Members will act in accordance with the Ontario Human Rights Code and, in that context, are sensitive to prohibited grounds such as citizenship, colour, creed, disability, ethnic origin and gender identity that may affect the conduct of a Review or decision.
- Members deal with groups and persons, with staff and with each other in a manner that reflects open and honest communication, respect, fair play, and ethical conduct.
- Members approach every application and every issue arising with an open mind and avoid doing or saying anything to cause any person to think otherwise.
- Members are independent in decision-making.

Collegiality

- Members promote positive relationships among PEQAB members.
- Members demonstrate respect for the views and opinions of colleagues.
- Members share their knowledge and expertise with other members as requested and as appropriate.

Commitment

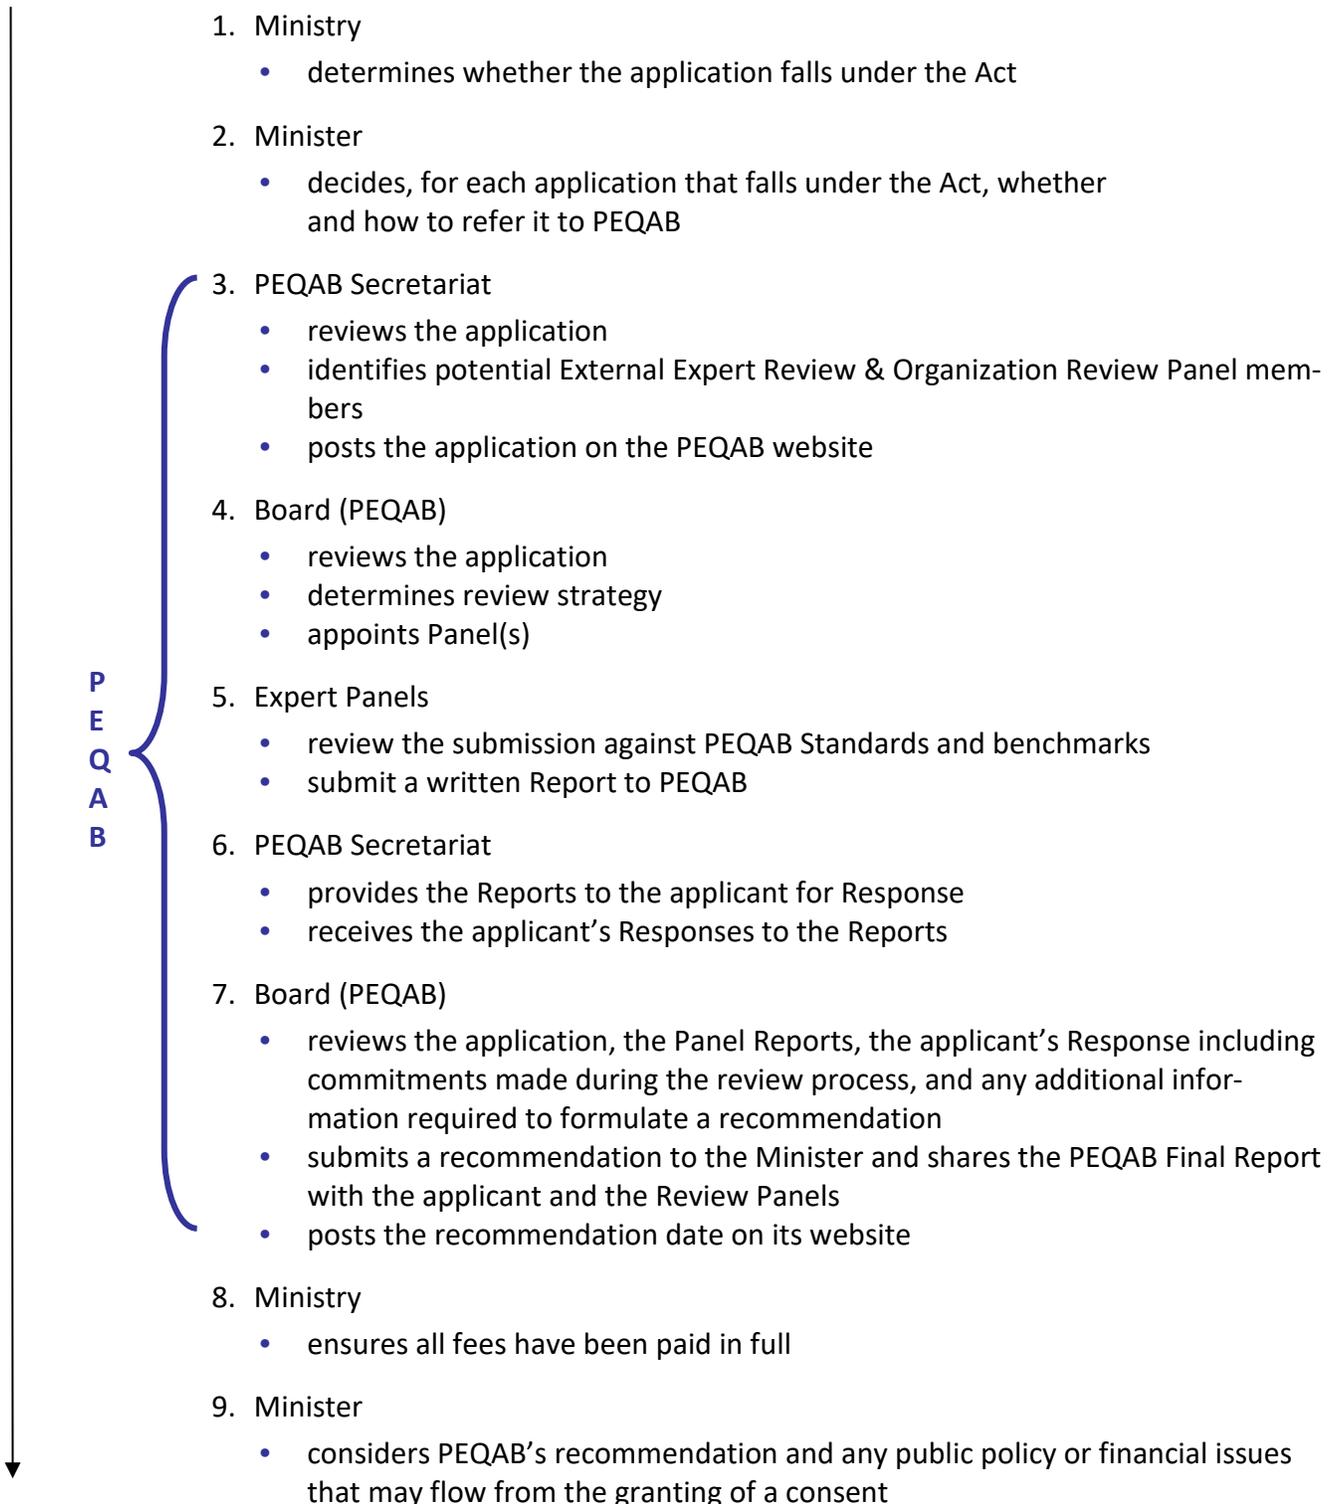

- Members are available on a timely basis to attend meetings and are adequately prepared for the duties expected of them.

3.11 PEQAB's Reapplication Gap Period

Unsuccessful applications which have been initiated with PEQAB cannot be considered again by the Board until the reapplication gap period of one year has expired. The beginning of the gap period

may be marked either by the date of the applicant's withdrawal of an application from PEQAB consideration or by the date of a letter of recommendation from the Board to the Minister which does not result in a consent or other approval.

3.12 Overview of Consent Process

- communicates the decision about consent to the applicant

Following the Minister’s communication of the decision to the applicant, the Board’s recommendation and the Minister’s decision are posted on the PEQAB website.

4. Submission and Mailing Instructions

4.1 Submission and Mailing Instructions

All applications for consent are to be addressed and submitted to the Minister of Colleges and Universities. There must be a separate submission prepared for each program/or program cluster for which the applicant is seeking the Minister’s consent.

Upon referral to the Board, the institution will be invoiced for the non-refundable application fee of \$5,000 CDN (or \$25,000 for new programs by private institutions and public-out-of-province providers) payable to the Ontario Ministry of Finance. Organizations applying for Ministerial consent are required to submit all materials **electronically**. For details on what to include please see instructions under 4.2 (new program) and 4.3 (program renewals).

Send all materials electronically to

The Minister of Colleges and Universities’ Universities Unit:
PostsecondaryAccountability@ontario.ca

The information submitted according to these *Guidelines* is collected pursuant to the *Freedom of Information and Protection of Privacy Act* and the *Post-secondary Education Choice and Excellence Act, 2000*.

4.2 New Program

For each program, prepare a submission consisting of the following sections:

- a. A copy of a letter of application to the Minister of Colleges and Universities stating the program/programs for which consent is sought
- b. A copy of the signed “Applicant Acknowledgement and Agreement” form as provided in the *Directives and Guidelines for Applying for Ministerial Consent under the Post-secondary Education Choice and Excellence Act, 2000*
- c. A completed Ministry [Summary of Application Form](#) (Appendix D)
- d. A submission for the **Organization Review** prepared in accordance with this *Manual*³ including
 1. Introduction

³ Under each Standard there is a box listing documentation commonly submitted. This list is not comprehensive, but it contains those documents which have satisfied the Board before. Applicants are free to submit any substitutional or additional documentation they think addresses their meeting the relevant benchmark(s).

2. Mission Statement and Academic Goals
 3. Administrative Capacity
 4. Ethical Conduct
 5. Academic Freedom and Integrity
 6. Student Protection
 7. Financial Stability
 8. Dispute Resolution
 9. Organization Evaluation
 10. Optional Material
 11. Policies
- e. A submission for the **Program Review** prepared in accordance with this *Manual* including
1. Introduction
 2. Degree Level
 3. Admission, Promotion and Graduation
 4. Program Content
 5. Program Delivery
 6. Capacity to Deliver
 7. Credential Recognition
 8. Regulation and Accreditation
 9. Nomenclature
 10. Program Evaluation
 11. Optional Material
 12. Policies
- For the **Organization Review** Submit Sections 1 to 10 as a single, searchable electronic file saved in PDF format. Supporting documentation (e.g. CVs of senior administrators) must be scanned and included in the electronic file.
 - Submit a second, single electronic file containing the same materials for the Review but with confidential or proprietary and personal information removed (i.e. CVs). This file will be posted on the PEQAB website. Please ensure that this electronic file is compliant with the *Accessibility for Ontarians with Disabilities Act (AODA)* and with the *Freedom of Information and Protection of Privacy Act (FIPPA)*.
 - For the **Program Review** Submit Sections 1 to 11 as a single, searchable electronic file saved in PDF format. Supporting documentation (e.g., faculty CVs, letters of support) must be scanned and included in the electronic file.
 - Submit a second, single electronic file containing the same materials for the Review but with confidential or proprietary and personal information removed (i.e. CVs, detailed course outlines and "Course Schedule 1") (see **Appendix 12.2**). This file will be posted on the PEQAB website. Please ensure that this electronic file is compliant with the *Accessibility for Ontarians with Disabilities Act (AODA)* and with the *Freedom of Information and Protection of Privacy Act (FIPPA)*.
 - Submit the Policies separately but as one (1) electronic file saved in PDF format. For instructions on what to include in the file see **Appendix 12.3**. Applicants that have submitted this policy file in a previous submission, and that have not revised any elements of the file, may omit this step, only noting that all relevant Policies are “on file” with PEQAB.

- Clearly indicate any information requested in a particular section that is not applicable to the submission or not available. For example, if advanced standing is not proposed, then include in the relevant section a statement that the policies on advanced standing are not applicable to this program.
- The submission will be reviewed against each of the Standards and benchmarks described in full detail in Chapters 6 and 8. Under each Standard, the documentation commonly submitted is listed.
- Only complete submissions will be processed. Submissions that do not follow this *Manual* or are incomplete will be returned to the applicant to be completed.

Application Introduction

Organization and Program Information

Prepare a title page for your submission that includes the following information:

- name of the organization
- URL for the organization (if applicable)
- proposed degree nomenclature (e.g., *Bachelor of Arts (Psychology)*, *Master of Business Administration*)
- location(s) (specific address) where the program is to be delivered.

Provide contact information for

- the person responsible for program review submission (the primary contact for the submission on matters pertaining to proposal content and communications from the Secretariat)
- the site visit coordinator (if different from above).

Table of Contents

Include a Table of Contents for the program review submission. Identify the items included within each section.

Executive Summary

Include an Executive Summary of your program review submission.

Program Abstract

Include an abstract of approximately 100-200 words that summarizes the nature of the program, its outcomes, potential employment for graduates, and/or opportunities for further study.

4.3 Program Renewal

For each program, prepare a submission consisting of the following sections:

- a. A copy of a letter of application to the Minister of Colleges and Universities stating the program/programs for which consent renewal is sought
- b. A copy of the signed “Applicant Acknowledgement and Agreement” form as provided in the *Directives and Guidelines for Applying for Ministerial Consent under the Post-secondary Education Choice and Excellence Act, 2000*
- c. A completed ministry [Summary of Application Form](#) (Appendix D)

- d. A submission for the **Organization Review** prepared in accordance with this *Manual*⁴ including
 1. Organization Evaluation
 2. Report: Context, Changes, and Developments
 3. Policies
 4. Additional Materials
- e. A submission for the **Program Review** prepared in accordance with this *Manual* including:
 1. Program Abstract⁵
 2. Course Schedules
 3. Program Self-Study
 4. Report: Program Context, Changes, and Developments
 5. Course Outlines
 6. Faculty CVs
 7. Academic Calendar
 8. Policies
 9. Additional Materials
 - Provide electronic files as specified under each Standard (Chapters 6 and 8). Under each Standard the documentation commonly submitted is listed.
 - Provide a file in PDF format for posting on the PEQAB website that contains the letter to the Minister, the program abstract, and "Course Schedule 2" (see **Appendix 12.2**). Please ensure that these electronic files are compliant with the *Accessibility for Ontarians with Disabilities Act (AODA)*.
 - Clearly indicate any information requested in a particular section that is not applicable to the submission or is not available. For example, if advanced standing is not offered, then include in the relevant section a statement that the policies on advanced standing are not applicable to this program.
 - The submission will contribute to the review of the application against the Board's Standards and benchmarks, articulated in Chapters 6 and 8 of this *Manual*. **Please note:** Samples of student work will be reviewed by the External Expert Review Panel. Guidelines for compiling, selecting and distributing samples of student work are located in **Appendix 12.4**.
 - Only complete submissions will be processed. Submissions that do not follow this *Manual* or are incomplete will be returned to the applicant to be completed.

⁴ Under each Standard there is a box listing documentation commonly submitted. This list is not comprehensive, but it contains those documents which have satisfied the Board before. Applicants are free to submit any substitutional or additional documentation they think addresses their meeting the relevant benchmark(s).

⁵ Include an abstract of approximately 100–200 words that summarizes the nature of the program, its outcomes, employment opportunities for graduates, and/or opportunities for further study.

5. Process for Organization Review

All applications are first reviewed against the Board's criteria for organizations. If the Organization Review results in a negative finding, the Board normally will not proceed with a Program Review and will forward its recommendations to the Minister.

5.1 Organization Review Committee

The Organization Review Committee (ORC) is a standing committee established by the Board to review the organizational soundness and capacity of private applicants.

Members of the Organization Review Committee are selected by the Board to reflect the several dimensions of consumer protection and organization quality, including but not limited to financial analysis, admission processes, registrarial functions, learning resources, and educational management. The Organization Review Committee may include persons with

- accounting certification and experience in corporate financial management
- experience in admissions/registrarial roles, including admissions policies and academic records management in a degree granting institution
- experience in managing learning resources
- senior management experience in a degree granting institution
- experience with professional, accrediting and regulatory bodies for higher education within and outside of Ontario.

5.2 Organization Review Panel

The Board strikes a Panel from among the members of the ORC to review each application from a private organization. The Organization Review Panel members must be free of any conflict of interest and be recognized by their peers for having a broad outlook, open mind, and sound judgement. Depending on the nature and complexity of the application for a private organization, the Organization Review Panel will normally have between 1 and 3 members.

Organization Review Panel Report

The primary obligation of the Organization Review Panel is to provide its best judgement on the capacity of the institution to offer the proposed program. To this end, the Organization Review Panel is expected to review applications against the criteria stated in Chapter 6. To assist in its deliberations, the Panel may request from applicants any information in addition to that contained in the application.

Under the coordination of the Panel Chair, the Organization Review Panel will develop a Report that includes at least the following information:

- a review of the application against each of the Board’s Standards and benchmarks stipulated in Chapter 6
- a review of the sufficiency, reliability, and validity of the evidence provided by the applicant
- a review of evidence found during any site visit
- an evaluation, with reasons, of whether the proposed organization meets the Board’s criteria.

5.3 Outcomes of Review

The Board’s Organization Review process will result either in an approval to proceed with a program quality review or, when an applicant failed to meet the Board’s Standards, a recommendation to the Minister to deny consent.

6. Organization Review Standards

All private applicants seeking Ministerial consent must first undergo an Organization Review. The purpose of the Organization Review is to review the applicant's organizational character, financial viability, and student protection policies and practices against the following Board Standards.

1. Mission Statement and Academic Goals
2. Administrative Capacity
3. Ethical Conduct
4. Academic Freedom and Integrity
5. Student Protection
6. Financial Stability
7. Dispute Resolution
8. Organization Evaluation

1. MISSION STATEMENT AND ACADEMIC GOALS STANDARD

The governing body has approved a mission statement and academic goals that identify the academic character and aspirations of the organization.

Benchmarks:

1. The organization has a clear and suitable statement of mission and academic goals.
2. Programs are clearly related to the organization's mission and academic goals.
3. Resources and polices support the mission.

Documentation commonly submitted

ALL

- Provide the institution's approved mission statement and academic goals.
- Describe how your organization meets the Board's mission statement and academic goals requirements.

2. ADMINISTRATIVE CAPACITY STANDARD

The organization has the legal characteristics, governance structure, and administrative capacity necessary to organize and manage a competent institution of higher learning.

Benchmarks:

Governance and Administrative Structure

1. The organization has an appropriate legal status and governing structure⁶.
2. The organization's reporting structure clearly indicates the relationship between the owners and the governing and managing bodies.

⁶ Usually including a governing body that is responsible for a) managing the assets of the organization, b) maintaining the purpose, viability, and integrity of the institution, c) achieving institutional policies and goals, d) selecting administrative leadership e) and providing the appropriate physical, fiscal, and human resources.

3. Governance and decision-making structures are clear, effective, and consistent with the organization's academic purposes.

Administrative Staff

4. The organization has
 - a) qualified senior administrative staff, including a chief executive officer who is accountable to the governing body and whose full-time or major responsibility is the administration of the institution
 - b) sufficient administrative staff with clear lines of administrative authority and accountability necessary to conduct the affairs of the institution in Ontario
 - c) administrative capacity to effectively manage an institution of higher learning.
5. Policies are in place that provide for succession planning.

Curriculum, Academic Policies, and Standards Development

6. Development of the curriculum, academic policies, and standards includes participation by qualified academic staff and consultation with students.

Documentation commonly submitted

ALL

- Provide documents (e.g., articles of incorporation, partnership agreements, statutory authority, or other document(s)) that identify the organization's legal status and any relationship to parent, subsidiary, or other corporate groups.
- Provide an organization chart or hierarchical outline of the organization's governance and administrative structure. Include
 - a description of the responsibilities and authority of each body identified in the chart and the eligibility criteria for appointment to each body
 - information concerning the organization's reporting structure and the relationship among the governing and managing bodies.
- Attach a Business and/or Academic Plan (at least five years) for Ontario operations detailing the commitment to the academic quality of program content and delivery.
- Provide
 - job descriptions for each senior administrative role in the organization. Include in each description the duties, responsibilities, decision-making authority, and required qualifications of the person in that role
 - copies of CVs of the individuals currently in senior administrative roles
 - the approved policies for succession planning.
- Attach an outline of the bodies, committees, and individuals within the organization involved in the development and/or decision-making pertaining to curriculum, academic policies, and academic standards and identify the role(s) of academic staff and students within these bodies and committees.

3. ETHICAL CONDUCT STANDARD

The organization values and upholds integrity and ethical conduct.

Benchmark:

1. The governing Board has produced an acceptable statement of the ethical standards relating to fair and honest business practices that will guide its conduct in the course of operations in Ontario and in other jurisdictions.

Documentation commonly submitted

ALL

- Provide the governing Board's statement of ethical standards pertaining to fair and honest business practices that guide the organization's business operations.

4. ACADEMIC FREEDOM AND INTEGRITY STANDARD

The organization maintains an atmosphere in which academic freedom exists and in which students and academic staff are expected to display a high degree of intellectual independence. Academic activity is supported by policies, procedures, and practices that encourage academic honesty and integrity.

Benchmarks:

Academic Freedom

1. The organization has policies on academic freedom that recognize and protect the rights of individuals in their pursuit of knowledge without fear of reprisals by the organization or by third parties, and that protect the right of individuals to communicate acquired knowledge and the results of research freely.

Academic Honesty

2. The organization
 - a) has appropriate policies pertaining to academic honesty and procedures for their enforcement.
 - b) ensures students and faculty understanding of the policies and procedures concerning academic honesty.

Intellectual Property, Ethical Research and Copyright

3. The organization has appropriate policies on the ownership of the intellectual products of employees and students.
4. The organization upholds formal ethical research standards. Where the organization conducts research in Ontario that involves the management of research funds, the use of animals in research or human research participants, the policies of the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council of Canada, and/or the Social Sciences and Humanities Research Council of Canada will govern the research.
5. There are appropriate policies and procedures concerning compliance with copyright law.

E-learning Components (if applicable)

6. For any e-learning, blended learning and distance learning components, the organization has
 - a) appropriate policies and procedures to address copyright and intellectual property issues (e.g., digital rights management and the use of object learning repositories)
 - b) appropriate safeguards to assure the authentication of student identity and the integrity of student work
 - c) policies and procedures to assure the verification of student identity for coursework and examinations, and for the control of examinations, including but not limited to security, time limits, and the selection of proctors/invigilators.

Statement of Faith (if applicable)

7. When students or staff are required to adhere to a statement of faith and/or a code of conduct, the organization
 - a) has a policy that ensures staff and students are notified of the requirement prior to employment or admission
 - b) has procedures in place to ensure that the principles of natural justice are followed in the event of alleged violations of any policy or contractual arrangement concerning any required statement of faith and/or code of conduct
 - c) demonstrates that the organization's curriculum development, content, and delivery procedures and practices ensure an academic environment in which
 - i. a full and balanced treatment of the commonly held, academic body of knowledge, theories, and opinions with respect to the various individual subjects and general discipline areas that comprise the program of study is appreciated and fostered
 - ii. both students and faculty are permitted and expected to engage in an open dialogue with and about these various theories and opinions.

Documentation commonly submitted

ALL

Include the organization's policies and procedures related to academic freedom and integrity (see Appendix 12.3).

5. STUDENT PROTECTION STANDARD

The organization values and upholds integrity and ethical conduct in its relations with students.

Benchmarks:

Public Information

1. Public reports, materials, and advertising are produced in a thorough, accurate, and truthful manner.
2. Key information about the institution's organization, policies, and programs is published in its academic year calendar or is otherwise readily available to students and the public.⁷

⁷ Key information usually includes a) the organization's mission and goals statement, b) a history of the organization and its governance and academic structure, c) the academic credentials/bios of faculty and senior administrators, d) a general description of each degree program and e) individual descriptions of all courses in programs, delivery mode/s and their credit value.

Student and Consumer Interests

3. The organization follows ethical business practices and protects student and consumer interests in the following areas:
 - a) student recruitment practices
 - b) the resolution of students' academic appeals, complaints, grievances, and/or other disputes
 - c) security of academic student records
 - d) payment schedule of fees, charges and refunds
 - e) student dismissal or withdrawals.
4. The organization ensures that students are aware of the organization's policies and procedures relevant to student life.⁸

E-learning Components (if applicable)

5. For courses and/or programs that incorporate blended, hybrid, or online delivery, students are informed about
 - a) the mode/s of delivery available to them
 - b) the technological requirements of participation and the technical competence required of them
 - c) any additional costs, beyond tuition and ancillary fees, associated with e-learning aspects of course/program delivery
 - d) the kind of support and protection available to them.

Documentation commonly submitted

ALL

Include the organization's policies and procedures related to integrity and ethical conduct in relation with students (see Appendix 12.3).

NEW PROGRAMS

If this is the organization's first application, or the organization has revised its policies, also include

- the current academic calendar or equivalent documentation such as promotional material or draft academic calendar materials
- a description of the method(s), or the instrument(s) used to ensure that, prior to registration, students are provided with all relevant policies and procedures.

6. FINANCIAL STABILITY STANDARD

The organization demonstrates financial stability and the financial resources to provide a stable learning environment and to ensure that students can complete the program.

Benchmarks:

1. The institution demonstrates financial capacity, including financial management procedures and appropriate planning to

⁸ These usually include policies/procedures on admissions (including credit transfer arrangements, entrance examinations and PLAR), grading, and where appropriate, supervision, preparation, and examination of theses/dissertations, academic honesty, intellectual property rights, student dismissal, dispute resolution student support and services, finances (such as tuition, scholarships and other financial assistance, payment of fees and charges, and withdrawals and refunds) and institutional closure.

- a) provide a stable learning environment
 - b) ensure that the number of students assumed in the business plan can complete the degree program if revenue falls short of the business plan or costs exceed the estimated allowances.
2. The organization’s business plans address the organization’s future educational, enrolment, physical and fiscal growth in Ontario
 - a) including the most likely and the worst-case scenarios, projected over 5 years⁹
 - b) including a budget narrative, providing context and a rationale for the most likely scenario in the *Budget Template*—telling the “story” of how the organization intends to develop the proposed degree program over the next five years
 - c) demonstrating the organization’s commitment to the academic quality of program content and delivery.
 3. Financial information contained in the business plan indicates that the organization has
 - a) a financial base adequate to support activities consistent with its mission and educational objectives, and
 - b) the required financial resources for start-up and ongoing operating costs associated with the delivery of the proposed program(s).
 5. The institution has identified the source of funds to be invested.
 6. The institution has a policy requiring the regular audit of the organization’s financial methods, performance, and stability by a qualified third-party accountant in accordance with generally accepted accounting practices.
 7. The institution subscribes to an annual reporting format that will permit the Board to review whether the criteria described above are being met.

Documentation commonly submitted

ALL

Reporting and Audit

- Include a copy of the organization’s policy for the regular audit of its financial methods, performance, and stability by an arm’s-length professional accountant.
- Include an audited financial statement (or, in the case of a newly established organization without a completed financial year, a pro forma financial statement) for the organization’s most recent year of active operation, prepared by an accountant licensed pursuant to the *Public Accounting Act, 2004*.
- Include a document describing the organization’s policy and format for annual internal financial reporting.

Subsidiary or Partner Organization

- If the organization is a subsidiary or partner of another organization/organizations, include an audited financial statement for all parent, partner, and subsidiary organizations for their most recent year of active operation, prepared by a qualified independent accountant.

Business Plans

Provide the following documentation (for operations in Ontario):

- A most likely and worst-case business plan/ budget for five years, which includes the revenue and expense sources by category.
- The assumptions embedded in the plan/budget for those years.

Note: The budget template incorporates the above but is not a required format.

Budget Narrative

Provide a budget narrative that covers the

⁹ See the Budget Template http://www.peqab.ca/Publications/Handbooks%20Guidelines/PEQAB_BudgetTemplatePrivate2016.xlsx

- relationship of the budget to the attainment of the institutional strategic/ academic plan/s
- full detail of the budget plan and projections
- realistic achievability of the base plan
- major risks to the most likely scenario and mitigation plans for the risks and
- likelihood of the worst-case scenario

Note: The risk discussion could cover risks in the context of likelihood, consequences, causes and mitigation. Concentrate on the few risks that could materially affect the budget.

7. DISPUTE RESOLUTION STANDARD

The organization has policies for dealing with disputes between the organization and its students, and between faculty and students.

Benchmarks:

1. Institutional policies and procedures ensure that academic appeals, complaints, grievances, and/or other disputes of students, faculty, staff, and administration are dealt with in accordance with the principles of natural justice.¹⁰
2. The organization's policies ensure that charges or complaints against an individual are stated clearly and in writing. In addition, there is
 - a) an administrative person(s) responsible for dealing with complaints¹¹
 - b) a process for reviewing disputes and examining the evidence
 - c) provision for a final internal review by a body of persons not involved in the dispute in any way.
3. Students and employees are informed about the policies and procedures for dispute resolution.

Documentation commonly submitted

ALL

Include the organization's policies and procedures related to dispute resolution in relation with faculty and students (see Appendix 12.3).

NEW PROGRAMS

If this is the organization's first application, or the organization has revised its policies, also include

- the current academic calendar or equivalent documentation such as promotional material or draft academic calendar materials

a description of the method(s), or the instrument(s) used to ensure that, prior to registration, students and employees are provided with all relevant policies and procedures.

¹⁰ Principles of natural justice should minimally include that individuals have a right to a) a fair and expeditious resolution of disputes b) know and understand the charges or complaints made against them, and c) be heard in response to charges or complaints made against them, before any disciplinary decision is taken, and that institutions have an obligation to deal with complaints or grievances according to clear and reasonable deadlines and to establish and operate according to administrative processes that deal with disputes fairly and expeditiously at the informal level.

¹¹ This person may also facilitate the informal resolution of disputes.

8. ORGANIZATION EVALUATION STANDARD

The ongoing quality of the operational and administrative aspects of the organization is assured by procedures for periodic evaluation.

Benchmarks:

Organization Review Policy

1. The organization has implemented and published a policy and procedure for the periodic review of its operational and administrative policies and procedures, with such reviews occurring at regular intervals, normally not exceeding five to seven years. The periodic review includes a comprehensive organizational review (occurring before each consent renewal) that comprises
 - a) a self-study undertaken, with student input by administrators, faculty members, and staff of the organization.
 - b) a review by an external Organization Evaluation Committee (OEC) and
 - c) an institutional response to the OEC Report.¹²
2. The organization uses suitable instruments, processes and information to ensure the appropriateness, effective management and continuous improvement of the organization's operation, policies, and procedures.
3. Representatives from all relevant stakeholder groups at the institution are involved in the ongoing quality assurance procedures.

Documentation commonly submitted

ALL

Include the organization's policies and procedures for periodic review of its operational and administrative policies and procedures (see Appendix 12.3).

NEW PROGRAMS

Provide information on how the self-study will be developed in reference to the criteria found in Appendix 12.10.

RENEWALS

Provide

- a copy of the self-study that was submitted to the OEC
- CVs of the members of the OEC
- the report of the OEC
- the organization's action plan that responds to the issues identified in the OEC report
- a report on any commitments based on previous reviews and any changes to the operational and administrative aspects of the organization.

¹² For more information on the criteria for developing a self-study, the composition and role of the OEC and the applicant's response to the OEC Report, please refer to Appendix 12.10.

7. Process for Degree Program Quality Review

7.1 External Expert Review Panels

The quality of each proposed degree program, or any part thereof, will normally be reviewed by an External Expert Review Panel. The nature and complexity of the application will determine the number and nature of credentials, skills, and backgrounds of Reviewers. The Board will select all External Expert Review Panel members.

The organization may nominate qualified persons of whom the Board may choose one or more to serve on the External Expert Review Panel. The Board has sole discretion, however, to select all External Expert Review Panel members for the application, without regard to the organization's nominees.

When an organization applies for consent to offer multiple programs, the Board will name a Panel or Panels of a size and nature appropriate to the application. Among the factors the Board will consider are whether the programs are new or being currently offered by the organization, and the degree of affinity among the proposed programs.

Criteria and Principles for External Expert Reviewers

External Expert Review Panel (EERP) members will possess qualifications and personal qualities that engender the confidence of the Board, the Minister, the public, accrediting bodies, relevant regulatory bodies and other degree granting institutions. Specifically, EERP members should demonstrate the following:

- be free of any conflict of interest, in accordance with the Board's policy on conflict of interest for Reviewers.
- hold an advanced academic credential related to the subject area under review (normally at the terminal level in the field).
- possess required or desired professional credentials and/or related work experience of substantial depth and range.
- have relevant academic experience such as administration, teaching, curriculum design, and/or quality assessment experience (e.g., as appraisers for accrediting bodies or as reviewers of degree programs).
- have a record of active scholarship.

In addition to the qualities of Panel members, Panel Chairs will normally be experienced in the administration of higher education and have practice as committee members who can function objectively and effectively as Chairs.

The Board will also ensure that

- at least one Panel member be new to the institution (i.e. someone who has not reviewed the program in the past 5 years).
- Panel members not be from the same institution.
- no more than one Panel member be an applicant nominee.

The Board will also strive to

- include on each Panel a member with experience with the type of institution at which the program is (proposed to be) offered.
- achieve diversity in the selection of EERP members.

The Board will strive to name Panels that reflect an appropriate mix of academic/professional credentials and experience related to the field. In establishing its roster of External Expert Review Panel members, the Board may seek nominations of qualified individuals from the public and a wide variety of constituencies, including but not limited to Ontario universities and Colleges as well as professional, accrediting, and regulatory bodies within and outside of Ontario postsecondary educational institutions. Suggestions for External Expert Reviewers and self-nominations are welcome.

External Expert Review Panel Report

The primary obligation of the Panel will be to provide its best judgement on the quality of the proposed program. To this end, the Panel will review applications against the Standards and benchmarks stated in Chapter 8. To assist in deliberations, the Panel may request from the organization any information in addition to that contained in the application.

Under the coordination of the Panel Chair, the members of the Panel will develop a report that includes at least the following information:

- a review of
 - the application against each of the Board's Standards and benchmarks stipulated in Chapter 8
 - the sufficiency, reliability, and validity of the evidence provided by the organization
 - the evidence found during any site visit
- a recommendation, with reasons, on whether the proposed or existing program meets the Board's Standards and is of sufficient academic quality to be offered to the people of Ontario.

7.2 Board's Recommendation

The Board's process for reviewing applications for Ministerial consent normally results in either a recommendation to the Minister to grant consent (the Board may recommend certain conditions be attached to the consent) or, when an applicant has failed to meet the Board's Standards, a recommendation to the Minister to deny consent.

Principles for Recommending Conditions of Consent

1. When the External Expert Review Panel has accurately identified a failure in meeting a PEQAB Standard and there has been no relevant commitment from the institution for a change which would meet the Standard, the Board would, if recommending consent, recommend a condition of consent.

2. When the External Expert Review Panel has accurately identified a weakness or opportunity for improvement in the program, and there has been a relevant commitment from the institution for a change, the Board would accept the commitment without recommending a condition of consent if
 - The institution has a track record of meeting similar commitments
 - The institution has the resources to meet the commitment
 - The change is important enough to the quality of the program to justify recording it as a commitment.

Recording Commitments

PEQAB Final Reports consistently incorporate a list of significant commitments made by the institution with the expectation that applicant institutions will adhere to its commitments and that they be re-evaluated at the next renewal.

8. Degree Program Quality Review Standards

All organizations seeking Ministerial consent to offer a degree program, or any part thereof must undergo a program quality review to determine whether the proposed program meets the Board's Standards and benchmarks. In cases where the organization seeks Ministerial consent to offer a part of a degree program, the Board will review the proposal in the context of the entire degree program.

The Board will review the quality of degree programs proposed by organizations in accordance with the following Board Standards and Ministerial requirements. The following program quality Standards will apply to programs taught by various means, including courses or programs that are designed specifically to serve students at a distance.

8.1 Degree Programs

For the purposes of this *Manual*, a degree program is a prescribed set of courses/studies that culminates in mastery of the bodies of knowledge and skills appropriate to the Degree Level Standard as specified in the Ontario Qualifications Framework (OQF) in the disciplinary field of study.

In **bachelor programs**

- in arts and science, where the BA or BSc degree title is awarded, a program is considered to be the comprehensive body of studies required to graduate with a specialization in a particular discipline (e.g., political science, psychology, economics, religious studies, biology) or in a particular interdisciplinary program (e.g., international studies, women's studies).
- in professionally oriented subjects, where the degree title is usually specific to the field (e.g., business, music, social work), the program is considered to be the comprehensive body of studies required to achieve that particular degree.

Graduate programs focus on a particular discipline or field of specialization within a discipline, and require more advanced and specialized knowledge, conceptual skill, independent research ability, and intellectual creativity than the degree programs that preceded them.

In reviewing proposed **doctoral degree programs** and, where appropriate, master's degree programs, the Board will expect the field(s) of specialization within a discipline to be identified and to see credible evidence of adequate strength in the proposed field(s) of specialization.

8.2 Minimum Proportion of a Complete Program an Applicant Must Offer

Applications for consent to offer part of a degree program will be reviewed in the context of the complete program. In cases where the organization seeking consent for part of a program does not

offer a complete degree program (e.g., offers degree completion or a degree based on recognition of prior credits), the Board's minimum requirements for the portion of the complete degree that an applicant must offer at the site from which the student is to receive the degree are the following:

Bachelor Degree	Graduate or Professional Degree
at least 25% (usually 30 full credits) of the program requirements	no less than 50% of the course requirements in terms of content and outcomes of the program as it is normally offered in public or accredited private institutions
	any program requirements, beyond the course work, which is standard in similar programs offered by public or accredited private institutions (e.g., a thesis and/or comprehensive examination)
those elements of a program that are designed to provide the student with the most critical advanced knowledge and skill requirements of the discipline at the relevant degree level—that is, the terminal rather than the introductory or medial segments of the program.	

8.3 Standards and Benchmarks

The Board will review proposed degree programs in accordance with the following Board Standards.

1. Degree Level
2. Admission, Promotion and Graduation
3. Program Content
4. Program Delivery
5. Capacity to Deliver
6. Credential Recognition
7. Regulation and Accreditation
8. Nomenclature
9. Internal Quality Assurance and Improvement
10. Economic Need
11. Non-duplication

Degree Standards

The Board's four degree Standards and the knowledge and skills expectations under each of these comprise the Ontario standards for degree programs. See the *Ontario Qualifications Framework* (OQF). These degree standards identify the knowledge and skills expected of graduates of bachelor's, honours bachelor's, master's and doctoral degree programs in Ontario.

The degree descriptions and the knowledge and skills identified in the Standards capture the most generic aspects of the respective degree levels. Each of the degree levels, however, applies to an ex-

tremely broad spectrum of disciplines and program types. For example, some general and honours/specialist bachelor degrees are in fields that are practice-oriented, while others are more theoretical and research-based. Whether a program is intended to prepare an individual for immediate practice/employment in a field of practice, for further study in a discipline, or both, it must meet a substantial and common set of outcomes within a degree level educational environment.

1. DEGREE LEVEL

Baccalaureate/Bachelor Degree ELEMENTS

1. Depth and Breadth of Knowledge

- a. *A general knowledge and understanding of many key concepts, methodologies, theoretical approaches, and assumptions in a discipline*
- b. *A broad understanding of some of the major fields in a discipline, including, where appropriate, from an interdisciplinary perspective, and how the fields may intersect with fields in related disciplines*
- c. *An ability to gather, review, evaluate, and interpret information relevant to one or more of the major fields in a discipline*
- d. *Some detailed knowledge in an area of the discipline*
- e. *Critical thinking and analytical skills inside and outside the discipline*
- f. *The ability to apply learning from one or more areas.*

2. Conceptual & Methodological Awareness/Research and Scholarship

An understanding of methods of enquiry or creative activity, or both, in their primary area of study that enables the student to

- a. *evaluate the appropriateness of different approaches to solving problems using well established ideas and techniques*
- b. *devise and sustain arguments or solve problems using these methods.*

3. Communication Skills

The ability to communicate the results of their study/work accurately and reliably, orally and in writing, to non-specialist audiences using structured and coherent arguments.

4. Application of Knowledge

- a. *The ability to review, present, and interpret quantitative and qualitative information to*
 - i. *develop lines of argument*
 - ii. *make sound judgements in accordance with the major theories, concepts, and methods of the subject(s) of study*
- b. *The ability to use a range of established techniques to*
 - i. *analyze information*
 - ii. *evaluate the appropriateness of different approaches to solving problems related to their area(s) of study*
 - iii. *propose solutions*
- c. *The ability to make critical use of scholarly reviews and primary sources.*

5. Professional Capacity/Autonomy

- a. *The qualities and transferable skills necessary for further study, employment, community involvement, and other activities requiring*
 - i. *the exercise of personal responsibility and decision-making*
 - ii. *working effectively with others*

- b. *The ability to identify and address their own learning needs in changing circumstances and to select an appropriate program of further study*
- c. *Behaviour consistent with academic integrity and social responsibility.*

6. Awareness of Limits of Knowledge

An understanding of the limits to their own knowledge and how this might influence their analysis and interpretations.

**Baccalaureate/Bachelor Degree: Honours
ELEMENTS**

1. Depth and Breadth of Knowledge

- a. *A developed knowledge and critical understanding of the key concepts, methodologies, current advances, theoretical approaches, and assumptions in a discipline overall, as well as in a specialized area of a discipline*
- b. *A developed understanding of many of the major fields in a discipline, including, where appropriate, from an interdisciplinary perspective, and how the fields may intersect with fields in related disciplines*
- c. *A developed ability to*
 - i. *gather, review, evaluate, and interpret information*
 - ii. *compare the merits of alternate hypotheses or creative options, relevant to one or more of the major fields in a discipline*
- d. *A developed, detailed knowledge of and experience in research in an area of the discipline*
- e. *Developed critical thinking and analytical skills inside and outside the discipline*
- f. *The ability to apply learning from one or more areas outside the discipline.*

2. Conceptual & Methodological Awareness/Research and Scholarship

An understanding of methods of enquiry or creative activity, or both, in their primary area of study that enables the student to

- a. *evaluate the appropriateness of different approaches to solving problems using well established ideas and techniques*
- b. *devise and sustain arguments or solve problems using these methods*
- c. *describe and comment upon particular aspects of current research or equivalent advanced scholarship.*

3. Communication Skills

The ability to communicate information, arguments and analysis accurately and reliably, orally and in writing, to specialist and non-specialist audiences using structured and coherent arguments, and, where appropriate, informed by key concepts and techniques of the discipline.

4. Application of Knowledge

- a. *The ability to review, present, and critically evaluate quantitative and qualitative information to*
 - i. *develop lines of argument*
 - ii. *make sound judgements in accordance with the major theories, concepts, and methods of the subject(s) of study*
 - iii. *apply underlying concepts, principles, and techniques of analysis, both within and outside the discipline*
 - iv. *where appropriate, use this knowledge in the creative process*

- b. *The ability to use a basic range of established techniques to*
 - i. *initiate and undertake critical evaluation of arguments, assumptions, abstract concepts and information*
 - ii. *propose solutions*
 - iii. *frame appropriate questions for the purpose of solving a problem*
 - iv. *solve a problem or create a new work*
- c. *The ability to make use of scholarly reviews and primary sources.*

5. Professional Capacity/Autonomy

- a. *The qualities and transferable skills necessary for further study, employment, community involvement, and other activities requiring*
 - i. *the exercise of initiative, personal responsibility, and accountability in both personal and group contexts*
 - ii. *working reflectively with others*
 - iii. *decision-making in complex contexts*
- b. *The ability to manage their own learning in changing circumstances, both within and outside the discipline, and to select an appropriate program of further study*
- c. *Behaviour consistent with academic integrity and social responsibility.*

6. Awareness of Limits of Knowledge

An understanding of the limits to their own knowledge and ability, and an appreciation of the uncertainty, ambiguity, and limits to knowledge and how this might influence analysis and interpretations.

**Master's Degree
ELEMENTS**

1. Depth and Breadth of Knowledge

A systematic understanding of knowledge, including, where appropriate, relevant knowledge outside the field and/or discipline, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study or area of professional practice.

2. Conceptual & Methodological Awareness/Research and Scholarship

- a. *A conceptual understanding and methodological competence that*
 - i. *enables a working comprehension of how established techniques of research and inquiry are used to create and interpret knowledge in the discipline*
 - ii. *enables a critical evaluation of current research and advanced research and scholarship in the discipline or area of professional competence*
 - iii. *enables a treatment of complex issues and judgements based on established principles and techniques*
- b. *On the basis of that competence, has shown at least one of the following:*
 - i. *the development and support of a sustained argument in written form*
 - ii. *originality in the application of knowledge.*

3. Communication Skills

The ability to communicate issues and conclusions clearly to specialist and non-specialist audiences.

4. Application of Knowledge

Competence in the research process by applying an existing body of knowledge in the critical analysis of a new question or of a specific problem or issue in a new setting.

5. Professional Capacity/Autonomy

- a. *The qualities and transferable skills necessary for employment requiring*
 - i. *the exercise of initiative, and of personal responsibility and accountability*
 - ii. *decision-making in complex situations, such as employment*
- b. *The intellectual independence required for continuing professional development*
- c. *The ethical behaviour consistent with academic integrity and the use of appropriate guidelines and procedures for responsible conduct of research*
- d. *The ability to appreciate the broader implications of applying knowledge to particular contexts.*

6. Awareness of Limits of Knowledge

Cognizance of the complexity of knowledge and of the potential contributions of other interpretations, methods, and disciplines.

**Doctoral Degree
ELEMENTS**

1. Depth and Breadth of Knowledge

A thorough understanding of a substantial body of knowledge that is at the forefront of their academic discipline or area of professional practice, including, where appropriate, relevant knowledge outside the field and/or discipline.

2. Conceptual & Methodological Awareness/Research and Scholarship

- a. *The ability to conceptualize, design, and implement research for the generation of new knowledge, applications, or understanding at the forefront of the discipline, and to adjust the research design or methodology in the light of unforeseen problems*
- b. *The ability to make informed judgements on complex issues in specialist fields, sometimes requiring new methods*
- c. *The ability to produce original research or other advanced scholarship of a quality to satisfy peer review and to merit publication.*

3. Communication Skills

The ability to communicate complex and/or ambiguous ideas and conclusions clearly and effectively to specialist and non-specialist audiences.

4. Application of Knowledge

The capacity to

- a. *undertake pure and/or applied research at an advanced level*
- b. *contribute to the development of academic or professional skills, techniques, tools, practices, ideas, theories, approaches, and/or materials.*

5. Professional Capacity/Autonomy

- a. *The qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and largely autonomous initiative in complex situations*
- b. *The intellectual independence required for continuing professional development*
- c. *The ethical behaviour consistent with academic integrity and the use of appropriate guidelines and procedures for responsible conduct of research*

d. *The ability to appreciate the broader implications of applying knowledge to particular contexts.*

6. Awareness of Limits of Knowledge

An appreciation of the limitations of one's own work and discipline, of the complexity of knowledge, and of the potential contributions of other interpretations, methods, and disciplines.

Benchmarks:

1. The program meets or exceeds the Degree Level Standard and the applicant demonstrates how the program meets the Standard.
2. Assessment of individual student work in the terminal stage of the program that reflects exemplary, average, and minimally acceptable performance demonstrates that the Degree Level Standard has been achieved.

Documentation commonly submitted

NEW

- Show where all six elements of the Degree Level Standard will be addressed by the proposed courses.

RENEWALS

- Show, with some examples from the courses and other supporting documentation, how this program meets the knowledge and skills expectations detailed under the six elements of the relevant Degree Level Standard.
- Demonstrate student achievement through the submission of
 - samples of student work that reflect exemplary, average, and minimally acceptable performance from the terminal years of the degree program, (as per PEQAB's current *Guidelines for Compiling, Selecting and Distributing Samples of Student Work*, Appendix 12.4) OR
 - results from recognized comparable or scalable evaluations of critical thinking, problem-solving and communication skills of students graduating from the program OR
 - results of other learning outcomes assessment models/management systems, as proposed by the institution (see Appendix 12.4).

2. ADMISSION, PROMOTION AND GRADUATION

Admission, promotion, and graduation requirements are consistent with the Ontario Qualifications Framework and the postsecondary character of degree granting organizations.

Benchmarks:

Admissions

1. Admission requirements are appropriate to the learning outcome goals of the program and are as specified on the Ontario Qualifications Framework (OQF).
2. Admission to a bachelor program normally requires at a minimum an Ontario Secondary School Diploma or equivalent,¹³ six university or university/college courses at the Grade 12 level, a minimum average of 65%, and any additional requirements.

¹³ For credentials earned in Quebec, applicants should have a Secondary V diploma and at least one year (minimum 12 academic courses) in a CEGEP academic diploma program, with subjects at stated levels relevant to the degree program.

3. Mature students¹⁴ have demonstrated academic abilities equivalent to those of Ontario high school graduates, verified by successful completion of courses at the postsecondary level or an entrance examination.
4. Admission to a master's program normally requires a recognized undergraduate degree equivalent to the four-year honours degree standard identified in the PEQAB Degree Level Standard and the Ontario Qualifications Framework, in an appropriate specialization, or relevant bridging studies, with a high level of performance in the prerequisite studies.
5. Admission to a doctoral program normally requires a recognized master's degree in an appropriate specialization, or relevant bridging studies, with a high level of performance in the prerequisite studies.

Advanced Standing and Degree Completion

6. For any type of advanced standing into the program, policies and procedures pertaining to bridging requirements, advanced standing, credit, and credential recognition are fair, reasonable, consistently applied and publicly accessible.
7. For any bridging and/or advanced standing arrangements the institution
 - a) provides a gap analysis
 - b) identifies how they will measure the "degree of difficulty gap" and address the "content and skills gap" and for Honours Bachelor Degrees the "breadth gap".¹⁵

Prior Learning Assessment

8. Institutions proposing to award credit or advanced standing for learning that takes place outside formal postsecondary educational institutions have policies and procedures pertaining to prior learning assessment which are fair, reasonable, consistent and publicly accessible.
9. Institutional policy demonstrates that credit will be awarded only for learning that can be demonstrated and not for experience.
10. The institution does not award advanced standing of more than 50% of the total number of the credits of the program based on prior learning assessment.¹⁶

Promotion and Graduation

11. Conditions for promotion and graduation are consistent with the learning outcomes of the program and are reinforced by policies governing academic remediation, sanctions, suspension for students who do not meet minimum achievement requirements, and grading policies or guidelines.¹⁷

¹⁴ Mature students are applicants who have not achieved the Ontario Secondary School Diploma (OSSD) or its equivalent and who are at least 19 years of age on or before the commencement of the program in which they intend to enroll.

¹⁵ See Appendix 12.6 Principles in Reviewing Bridges to Degrees

¹⁶ In the context of this benchmark, prior learning assessment only refers to the assessment of learning gained outside a traditional classroom (through work experience, volunteering, outside study, etc.) and excludes (and therefore allows) transfer credits and transfer agreements which may amount to more than 50% advanced standing.

¹⁷ In undergraduate programs the minimum overall acceptable achievement for progression (across all degree requirements, including the breadth and discipline-related requirements) is not lower than the level typically designated by C- (60–62%). In graduate programs the minimum acceptable achievement for courses and other requirements applicable to the accumulation of credit toward the degree is not lower than the level typically designated by B- or 70–72%.

Documentation commonly submitted

ALL

- Provide information indicating how your requirements for admission (including direct admission and any proposed bridging or advanced standing options), promotion, and graduation meet the Board's criteria.
- Provide reference to all admission, promotion, and graduation policies contained within the institution's policies file (see Appendix 12.3) and include at least the following:

Admissions

- the institution's published policies, academic calendar, student handbook and/or institutional website equivalents or other (including any credential, specializations and minimum achievement level) and any other requirements (e.g., any portfolio or interview requirements) for admission into the first year of the degree program

Advanced Standing and Degree Completion (if applicable)

- the institution's published policies and procedures pertaining to credit transfer/recognition (including any bridging requirements for certificate/diploma to degree laddering)
- details about the amount of credit students will receive toward the degree program, any special requirements of students to enter a degree completion arrangement, and the point of entry into the degree program.
- for each degree completion arrangement, attach a gap analysis that includes at least a comparison of the program outcomes of the prior study with the program outcomes of the proposed degree, the gaps in knowledge and skills, and how these will be addressed (see Appendix 12.6).

Prior Learning Assessment

- the institution's published policies and procedures pertaining to entrance examinations and advanced placement based on prior learning assessments.

Promotion and Graduation

- information about the level of achievement required of students in the program for promotion within the program and for graduation
- where applicable, an explanation of how the GPA is calculated
- reference to the policies and procedures for academic remediation, sanctions and suspension for students who do not meet minimum achievement requirements.
- information about the academic requirements and any other requirements for promotion and graduation.

RENEWALS

Submit an assessment of the following (based on the program self-study, see Standard 9):

- the appropriateness of admission requirements
- application/enrollment data
- retention and graduation rates

3. PROGRAM CONTENT

The program offers current knowledge in the field of sufficient rigour, breadth, and depth to achieve the knowledge and skills identified in the Degree Level Standard.

Benchmarks:

General

1. The program ensures an appropriate balance of theory and practice.

2. The curriculum (core¹⁸ and where applicable non-core¹⁹) contributes to the achievement of
 - a) critical thinking, quantitative reasoning, written and oral communication skills
 - b) knowledge of society and culture, and skills relevant to civic engagement.
3. All courses provide exposure to increasingly complex theory at the degree level and, in applied or professional courses and where otherwise appropriate, the application of that theory to practice to the demands of practice in the field(s).
4. Where applicable, the curriculum reflects appropriate levels of Ontario and Canadian content.
5. The curriculum (core and, where applicable non-core) reflects current knowledge in its field(s).
6. Learning outcomes in the subjects/courses enable graduates to meet or exceed the requirements
 - a) for graduates from similar programs in Ontario and other jurisdictions
 - b) of the field(s) of study and/or practice
 - c) of any relevant professional or accrediting body.

Program Advisory Committee

7. A Program Advisory Committee
 - a) includes experts in the field external to the organization and, for degrees in applied and professional areas of study, employers and representatives from industry and professional associations
 - b) regularly comments on the currency of the curriculum in relationship to developments in the discipline/field of study as well as the relevant labour market
 - c) confirms the currency of the curriculum and, as appropriate, its relevance to the field(s) of practice
 - d) endorses the program as represented in the application
 - e) strives to achieve best practice.²⁰

Non-Core (undergraduate programs only)

8. Non-core courses provide
 - a) knowledge in at least two of the following outside the core: i) humanities, ii) sciences, iii) social sciences, iv) global cultures (including Indigenous cultures), v) mathematics
 - b) more than introductory knowledge of the distinctive assumptions and modes of analysis of a discipline outside the core fields of study.
9. In undergraduate programs, the balance of core and non-core/breadth courses is normally achieved as follows:

¹⁸ Core courses are those that contribute to the development of knowledge in the main field/s of study, as identified by the degree nomenclature, or in a related field. For example, psychology, statistics and history are different fields. Because the field of psychology uses scientific method as one of its methodological approaches, statistics would be a related field and would be a core course in a psychology degree program; statistics would be a non-core course in a history program.

¹⁹ Non-core courses are required only for undergraduate programs. Non-core courses are those that contribute to the knowledge in fields outside of the main field/s of study.

²⁰ It is considered best practice that a) the PAC chair be an external member of the committee, b) the PAC have at least eight members, c) the PAC chair set the agenda, d) the PAC meet at least twice a year, e) institution/program staff serve as the secretariat to the PAC supporting the PAC with setting up meetings, booking times & spaces etc., f) PAC membership include representation from the relevant labour market and from the discipline/field of study, g) PAC membership include distinguished student/s and/or a recent graduate/s of the program h) PAC meetings be minuted and i) the PAC formally endorse the curriculum as part of the institution's self-study (see Standard 9).

- a) 20% of the program hours are in non-core courses, which can be any degree level courses outside of the core²¹
- b) at least one non-core course is an elective, freely chosen by the student.

Work-Integrated Learning

10. Any work-integrated learning experience

- a) is appropriate to the field of the program
- b) has articulated, appropriate learning outcomes
- c) is supervised by both an institutional representative with relevant academic credentials and an employer/staff member who collaborate to evaluate the student performance
- d) provides opportunities and structure for student reflection on program learning outcomes in relationship to work-integrated learning experience(s).

Research-focused Graduate Programs

11. Research-focused Graduate Programs

- a) provide sufficient opportunities and support for research and other scholarly activity
- b) require student and faculty participation in the broader research community.

Documentation commonly submitted

ALL

- Provide a course schedule (Course Schedule 1, see Appendix 12.2) stating for each academic year, and by semester, the following information:
 - the title of each course/other requirement
 - the mode/s of delivery
 - the type of course/other requirement
 - hours per course
 - course prerequisites, co-requisites, and restrictions
 - number of sections of the course anticipated for this degree program²²
 - proposed instructors and their highest earned qualifications for each section. You may also additionally note qualifications in progress. If faculty is to be hired, indicate required credentials.
- Provide a second course schedule (Course Schedule 2, see Appendix 12.2) that is identical to "Course Schedule 1", with the exception that it does not identify the names of instructors.
- Attach a table that indicates (or embed within the table for degree level outcomes, if these are provided in a table) the program level learning outcomes and the corresponding courses, course segments, or work-integrated learning outcomes that contribute to the program outcomes.
- Work-integrated Learning (if applicable)
 - identify all requirements/options for work-integrated learning experiences in the program.
 - include a summary of the types of work experiences students have/will have for work-integrated learning associated with the program, the institution's and the program/school/centre's plans to

²¹ An applicant may demonstrate through alternative approaches that the degree program meets the breadth/non-core requirements typical of such programs as offered at other postsecondary institutions. For example, undergraduate programs associated with accrediting bodies or other industry/professional regulatory bodies may depart from this norm, especially if meeting the 20% non-core benchmark would drive the total program to an extraordinary number of credit hours.

²² For courses which service a number of degree programs (e.g. "Introduction to Accounting" which has students from a number of different business degrees) or other multi-section courses, estimate the number of sections of this course necessary for the number of students from the degree program under review and indicate instructors for each of these sections.

develop/further develop the WIL opportunities for students, and the level of support the institution and the program/school/centre extend/will extend to students seeking work-integrated learning experiences.

- identify the learning outcomes of the work-integrated learning experiences associated with the program and
- explain how students are/will be evaluated against these stated learning outcomes
- indicate whether learning experience are paid or unpaid and if unpaid provide a rationale.

NEW PROGRAMS

- Summarize features of the program and any supporting resources to demonstrate that the knowledge and skill expectations in the six elements of the Degree Level Standard will be met.
- Provide course materials for each of the proposed core courses and any bridging course. Identify each course by name and/or course code as per the submitted Course Schedule. For each of these courses include the following:
 - Course learning outcomes and links to program learning outcomes (these can be provided on a course by course basis or as a separate document incorporating all the core courses)
 - A listing/outline of major topics and/or key concepts and methodologies to be covered in the course
 - Examples of proposed resources (textbooks, course kits, and other).
- Identify the membership of the Program Advisory Committee (PAC), including the members' names, occupations, related credentials, professional affiliations, and employers. Attach information about the schedule of meetings and copies of relevant minutes of PAC meetings. If no formal PAC has been formed include detailed information about a) the pre-PAC members, b) how the pre-PAC was involved in the program planning and c) the formation of the PAC.

RENEWALS

- Provide course materials for each of the core courses and any bridging course. Identify each course by name and/or course code as per the submitted Course Schedule. Attach in whatever form is used at your institution for each core and any bridging course:
 - Course Summary/Description (brief outline of the subject to be investigated)
 - Course learning outcomes (these can be provided on a course by course basis or as a separate document incorporating all the core courses).
- For each of the core course and any bridging course, attach the materials which present the course to students on a week by week or module by module basis:
 - Topics discussed week by week or module by module
 - An outline of the distribution of marks according to the kinds of assignment: (e.g. essays, multiple choice tests, final exams)
 - Resources (e.g. textbooks, course kits, and other).
- If there are multiple sections of a course in which the above vary, attach the course materials for one which is representative. These should provide sufficient detail to allow reviewers to knowledgeably review the Degree Level, the Program Content and other Standards.
- Identify the membership of the Program Advisory Committee (PAC), including the members' names, occupations, related credentials, professional affiliations, and employers. Attach information about the schedule of meetings and copies of relevant minutes of PAC meetings. Submit samples of student work from the terminal stage of the program clearly sorted into what the instructor considers minimally acceptable, average and exemplary work (see Appendix 12.4).

4. PROGRAM DELIVERY

The program structure and delivery methods support achievement of the expected and actual learning outcomes.

Benchmarks:

Academic Feasibility

1. The program is organized in such a way that students can achieve the program and degree level learning outcomes within the prescribed period of study with a manageable, plausible, and well distributed workload that takes into account all the time required of a student to fulfill the requirements of their program.
2. The teaching methods
 - a) meet the technical and progression requirements
 - b) are suited to achieve the intended program and degree level learning outcomes
 - c) take into account the requirements of a diversified student body
 - d) contribute to and enhance the creation of academic/professional community among students and between students and faculty.
3. Student assignments and their assessments
 - a) result in reasonable student workloads
 - b) demonstrate the achievement of the stated program and degree level learning outcomes and
 - c) provide appropriate information to students about their achievement levels.
4. The program creates opportunities for students to provide in appropriate ways input about program content and delivery.

Documentation commonly submitted

ALL

Provide

- a narrative about the mode/s of delivery and how they support achievement of the expected and actual learning outcomes.
- the institution's published policies, academic calendar, student handbook and/or institutional website equivalents or other pertaining to quality assurance of program delivery method(s) and professional development opportunities of faculty contained the institution's policies file (see Appendix 12.3).

NEW PROGRAMS

- Describe how you review and quality assure the appropriateness of the structure and method of program delivery.
- Describe how student assessments and the student workload is reviewed by the program as a whole and how it aligns with the stated program and degree level learning outcomes (e.g., through workload maps, tailored questions about the distribution of work across the semesters).
- Describe how you plan to engage students in discussions about program content and delivery.

RENEWALS

Provide evidence of the above (based on the program self-study, see Standard 9).

5. CAPACITY TO DELIVER

The organization has the capacity to deliver the quality of education necessary for students to attain the stated and necessary learning outcomes.

Benchmarks:

General

1. The institution provides and maintains sufficient
 - a) numbers of current faculty and other staff or associated hiring and/or succession plans so as to ensure its sustainability in the context of normal staff turnover²³
 - b) student and faculty access to learning and information resources²⁴
 - c) facilities to support and deliver the program, to support independent student learning and academic gathering, and to meet the demands of the projected student enrolment. The interdependence with other study programs is considered.

Faculty Qualifications for Undergraduate Programs

2. All faculty^{25,26} teaching in the professional or main field of study (core), acting as thesis supervisors and/or members of examining committees, where appropriate, teaching non-core courses
 - a) have, where relevant, professional credentials and related work experience
 - b) hold an academic credential at least one degree higher than that offered by the program in the field or in a closely related field/discipline
 - c) engage in a level of scholarship, research, or creative activity sufficient to ensure their currency in the field²⁷
 - d) are adequately trained for the delivery mode/s.

²³ The required minimum faculty and staff members will depend upon the method of delivery, enrolments, and the complexity and variety of specializations and other factors; however, a single faculty member, in the absence of a practicable hiring or succession plan, would normally be insufficient to meet this benchmark. It remains up to the External Expert Reviewers to determine if a given faculty complement arrangement is sufficient for the program in question.

²⁴ For example, there are adequate resources and processes to acquaint faculty, students, and course designers with new software or systems as they are adopted for the delivery mode/s of the program.

²⁵ To satisfy the following benchmarks, and in compliance with the *Freedom of Information and Protection of Privacy Act*, the applicant has obtained the written consent of individual faculty members to submit their CVs to the Board.

²⁶ Exceptions to any benchmarks pertaining to faculty must be

- a) based on the absence of a related program credential in a university or other extraordinary circumstances
- b) justified in writing with specific reference to the Board's Capacity to Deliver Standard and approved by the President or, on explicit delegation, the applicant's senior academic officer. The signed document must be kept for review at the time of any request for renewed consent.

²⁷ In assessing faculty members' currency and engagement with scholarship, research, or creative activity, the following may be considered, provided that these contributions are in a form (in a phrase adapted from Boyer) "subject to critical review and allowing use/exchange by other members of the scholarly community." In all cases, such contributions may take digital form. In general, the Board seeks evidence that faculty are intellectually engaged with developments in their fields, including but not limited to a) publishing and/or reviewing professional publications in their fields, b) participation and/or presentations at provincial, national, and international conferences, competitions, or exhibitions in their fields, c) engagement with the scholarship of pedagogy in their fields, d) participation in regulatory and accrediting association workshops, degree audits, or related work in their fields, e) engagement in basic and/or applied research, labour market research, and/or related industry needs assessments, f) application of conceptual knowledge to current practice in their fields, such as reports to industry or consulting work, g) creative contributions to their fields through exhibitions or related forms and h) development of case studies in their fields.

3. At least 50% of the students' experience in the professional or main field of study and in the non-core areas is in courses taught by a faculty member holding the terminal academic credential in the field or in a closely related field/discipline.^{28, 29}

Faculty Qualifications for Graduate Programs

4. At least 80% of the students' experience in the program is in courses taught by a faculty member holding the terminal academic credential in the field or in a closely related field/discipline.³⁰
5. All faculty acting as thesis/dissertation supervisors and/or as members of examining committees hold the terminal academic credential in the field or in a closely related field/discipline.
6. Faculty members have substantial records of scholarly contributions to the field/discipline and demonstrate their ongoing contribution to the advancement of the field/discipline through peer-reviewed research/scholarship, exhibitions, or other professional activity.

Faculty Policies

7. The institution
 - a) has on file evidence --supplied directly to the institution from the granting institution-- of the highest academic credentials and any required professional credentials claimed by faculty members
 - b) performs due diligence with respect to the academic credibility of the credential granting institution for all qualifications claimed by faculty members
 - c) fairly and consistently verifies the equivalency of international credentials to those similarly named credentials offered by Canadian institutions
 - d) regularly reviews faculty performance, including student evaluation of teaching and/or supervision
 - e) supports the professional development of faculty including the promotion of curricular and instructional innovation, as well as technological skills, where appropriate
 - f) specifies faculty teaching and supervision loads and availability to students.

Student Supports

8. Students have access to a range of academic and other support services appropriate to the delivery mode/s of the program and to them as learners.

²⁸ Generally and in the context of a practicable schedule of teaching assignments, the percentage can be achieved if 50% of all faculty teaching core courses in the program hold the terminal academic credential in the field or in a closely related field/discipline or if 50% of all core courses or all hours in core courses in the program are taught by faculty with a terminal academic credential in the field or in a closely related field/discipline.

²⁹ The doctorate is normally the terminal academic credential in all fields or disciplines with the exception of certain fields where a master's degree in the field/discipline is more typical. The Board expects that the faculty will hold the terminal academic credential a) in the same field/discipline area as the proposed program area, b) in a field/discipline that can be shown to be closely related in content and c) with a graduate level specialty in the same field/discipline.

³⁰ Generally and in the context of a practicable schedule of teaching assignments, the percentage can be achieved if 80% of all faculty teaching in the program hold the terminal academic credential in the field or in a closely related field/discipline or if 80% of all courses or all hours in courses in the program are taught by faculty with a terminal academic credential in the field or in a closely related field/discipline.

Documentation commonly submitted

ALL

Provide CVs for all Faculty teaching core and (if applicable) bridging courses (see Appendix 12.8 for core faculty and Appendix 12.9 for breadth/non-core faculty).

NEW PROGRAMS

- Describe the on-site and electronic library resources available to faculty and students.
- Provide information about on- and/or off-site computer resources and web access available to students.
- Provide information about classroom space, and faculty and student working/meeting spaces.
- Describe any specialized equipment, workstations, and laboratory space available to students.
- Attach the institution's plan/schedule for the renewal and upgrading of resources including library resources, computers and computer access, classrooms, laboratory space and equipment.
- Provide a four-year projection of cumulative enrolment that accounts for projected attrition, and a four-year plan indicating the number of academic staff assigned to the program.
- Include reference to the institution's policies on faculty credentials, performance, professional development etc. (see Appendix 12.3).
- Describe professional development opportunities of faculty.
- Describe how the institution supports and engages the program faculty in
 - reporting on levels of scholarship, research, and creative activity
 - reflecting on the results of the evaluation of teaching.
- Provide information on the main support services that will be available to students.

RENEWALS

- Provide current information on all of the above.
- Provide indicators of faculty currency and engagement with relevant scholarship, research or creative activity (e.g. faculty CVs reflecting the full range of activities, see footnote 32).

6. CREDENTIAL RECOGNITION STANDARD

While meeting particular needs, the program is designed to maximize the graduates' potential for employment and promotion in their field and for further study.

Documentation commonly submitted

ALL

Provide an overview of the state of the field of practice for graduates as well as information on how the program is designed to maximize the graduates' potential for employment and promotion in their field and for further study.

NEW PROGRAMS

- Include an analysis of occupations relevant to graduates, occupational statistics, economic forecasts, employment outlooks, job advertisements and/or surveys of employers.
- Provide an overview of potential pathway opportunities for graduates.
- Provide a plan for tracking program graduates.
- Through documented consultations with employers, relevant occupational groups, professional associations, and other postsecondary education organizations provide evidence that
 - employers are committed to offer placements to students for any required WIL component of the program, to hire graduates, or to provide financial support for the program and/or its students
 - the credential will be recognized for purposes of employment and further study.

RENEWALS

- Include documentation that employers, relevant occupational groups, professional associations, and other postsecondary education organizations recognized the credential for purposes of employment and further study.
- Provide information/data about the labour market and further education outcomes of program graduates.
- Provide a report on changes in the occupational field/sector, the performance and pathways of graduates as they relate to the labour market outlook and further studies.

7. REGULATION AND ACCREDITATION STANDARD

Programs leading to occupations that are subject to government regulations are designed to prepare students to meet the requirements of the relevant regulatory and/or accrediting body.

Documentation commonly submitted

ALL

If applicable

- Describe how the program prepares students to meet the requirements of the relevant regulatory and/or accrediting body.
- Attach the current requirements of regulatory bodies and/or standards of major and/or nationally recognized professional associations, accreditation agencies, or other organizations associated with this field of study and indicate how the program will address (**NEW PROGRAMS**) or is addressing (**RENEWALS**) these.
- Include documentation from these bodies that indicate recognition of the graduate's credentials in terms of entry to practice or requirements for further study.

8. NOMENCLATURE

The program nomenclature reflects the postsecondary education achieved, facilitates public understanding of the qualification, and assists students, employers, and other postsecondary institutions to recognize the level, nature, and discipline of study.

Benchmark:

1. The degree title conveys accurate information about the degree level, nature of the degree, and discipline or subject of study.
2. Majors³¹ in Honours Baccalaureate programs (if applicable): Normally to qualify as a major and to be designated within the degree title, the major area would be supported by courses or units/modules in courses which comprise approximately 30% or more of the degree program—typically 12 of 40 semester courses or the equivalent.

³¹ A single main degree title may be modified by terms reflecting one of several majors offered within the degree program; for example, *Honours Bachelor of Financial Services: Insurance* and *Honours Bachelor of Financial Services: Financial Planning*.

Documentation commonly submitted

NEW PROGRAMS

Explain how the program nomenclature reflects the postsecondary education achieved, facilitates public understanding of the qualification, assists students, employers, and other postsecondary institutions to recognize the level, nature, and discipline of study and provide supporting materials (e.g. results of jurisdictional scans).

RENEWALS

Provide additional information only if a nomenclature change is planned.

9. INTERNAL QUALITY ASSURANCE AND DEVELOPMENT

The continuous quality of the program is assured by effective quality assurance mechanisms for periodic evaluation.

Benchmarks:

Program Review Policy

1. The institution's internal quality assurance processes ensure that curricula are appropriately designed and presented for all modes of delivery.
2. The institution has implemented and published a policy and procedure for the periodic review of its degree programs, with such reviews occurring at regular intervals, normally not exceeding five to seven years. The periodic review includes a comprehensive program review³² that comprises
 - a) a program self-study undertaken, with student input, by faculty members and administrators of the program.
 - b) a review by an external Program Evaluation Committee (PEC)³³ and
 - c) an institutional response to the PEC Report³⁴.
3. The institution uses appropriate instruments, processes and information to ensure the effective management and continuous improvement of the program and its delivery, including, for example, course evaluations and faculty feedback, student achievement demonstrations, faculty and instructor performance, currency and engagement with scholarship, research, or creative activity.
4. Representatives from all relevant stakeholder groups stakeholders at the institution are involved in the ongoing quality assurance procedures.

³² The first such evaluation should occur before a request for renewal of Ministerial consent.

³³ In certain circumstances the PEC may be replaced by a panel from a professional accreditation agency (such as the Canadian Engineering Accreditation Board or the Council for Interior Design Accreditation) if

- the accreditation review is sufficiently similar to that of PEQAB and
- it covers most areas typically addressed in a PEC review.

In such cases an organization would supplement the self-study, tailored toward the professional accreditation, with a self-study against PEQAB criteria not sufficiently addressed through the relevant accreditation criteria.

³⁴ or to the Accreditation report where applicable.

Documentation commonly submitted

ALL

Include the institution's policies and procedures for periodic evaluation and provide a narrative or policy which addresses how the institution will distinguish in its self-evaluation between the different modes of delivery (see Appendix 12.3).

NEW PROGRAMS

Provide information about the instruments, processes and data that will be used to ensure the effective management and continuous improvement of the program and its delivery.

RENEWALS

Provide

- a copy of the self-study that was submitted to the PEC (see Appendix 12.11)
- CVs of the members of the PEC
- the report of the PEC
- the organization's action plan that responds to the issues identified in the PEC report
- a report on any commitments based on previous reviews and any changes to the program/evidence of continuous program improvements.

10. ECONOMIC NEED STANDARD

The proposed/renewed degree program reflects economic needs within Ontario.

Benchmarks:

1. The submission reflects sufficient evidence of student demand.
2. The submission reflects sufficient evidence of labour market demand for the program's graduates.

Documentation commonly submitted

Appendix D: Section 3: Summary of Application Form. *Directions and Guidelines for Applying for Ministerial Consent under the Post-Secondary Education Choice & Excellence Act, 2000*

11. NON-DUPLICATION STANDARD

The proposed/renewed degree program does not duplicate or closely approximate existing degree programs reasonably accessible to students comprising the proposed student demand.

Benchmark:

1. The submission reflects evidence of
 - a) features of the proposed program distinct from other existing similar-seeming programs, and/or
 - b) evidence of demand for the program which is not met by similar existing programs.

Documentation commonly submitted

Appendix D: Section 3: Summary of Application Form. *Directions and Guidelines for Applying for Ministerial Consent under the Post-Secondary Education Choice & Excellence Act, 2000*

9. Honorary Degree Review Criteria

The Minister's consent is required to award honorary degrees.

The following criteria will guide the Board's review of applications to award honorary degrees.

1. The applicant institution must have the authority to award one or more earned degrees at the same level as the proposed honorary degrees (i.e. to award honorary doctorates the institution must also award earned doctorates).
2. The institution has acceptable policies on the selection of recipients for an honorary degree, including
 - a) that the recipient
 - is not required to pay a fee for the award
 - must meet one or more of the following criteria:
 - has made a significant achievement for the public good at the Ontario, national or international level and/or
 - has achieved noted academic eminence or accomplishments in a particular field of study or applied education and/or
 - has enhanced or promoted the institution's image and reputation in Ontario or elsewhere.
 - b) that administrative and academic staff and students of programs offered pursuant to a consent are among those eligible to make nominations for an honorary award.
3. The nomenclature of the award reflects recognized practice and its honorary nature.
4. The institution may only award one honorary degree per academic year for each of the (related) degree programs it is offering.
5. Unless an honorary degree is being awarded posthumously, the recipient must be in attendance at the convocation or other College public event at which the honorary degree is awarded.

10. Criteria for the Use of “University”

Ministerial consent is required to

- operate or maintain a university
- use or be known by a name of a university or any derivation or abbreviation of a name of a university
- hold oneself out to be a university
- make use of the term “university” or any derivation or abbreviation of the word in advertising relating to an educational institution in Ontario.

Unless stated otherwise in the Ministerial consent, a consent to use the word “university” in a name, in advertising and in promotional activity does not confer any right to offer degree programs.

For out-of-province institutions, the Board has recognized, for operations under consent in Ontario, these institutions’ existing names in their home jurisdictions, including the terms “University” or “University College,” when present. If the Board receives a Ministerial referral regarding such an out-of-province institution which specifies review of these terms, and that institution is quality assured in its home jurisdiction by a registered quality assurance agency, the Board’s first recourse is to a gap analysis of the quality assurance practices of that agency. The Board would normally recognize the outcomes of the practices of other registered quality assurance agencies, including their recognition in their home jurisdictions, of an institution as a “University” or a “University College.”

In preparing recommendations to the Minister on applications for consent to use the terms “university,” the Board **otherwise** will employ the following criteria.

10.1 University

In accord with “educational standards recognized in Ontario and in other jurisdictions”, the following criteria are generally related to the practices of universities in Ontario and university systems in major North American jurisdictions.

A university is a legally constituted academic organization that³⁵

1. has been assessed by PEQAB, within the previous two years, as having met all the Standards of PEQAB’s Organization Review
2. has a mission and practice including the creation of knowledge through research and/or scholarly activity and the dissemination of knowledge through teaching and publication
3. has a structure in which authority is vested in academic staff, through membership in a senate, academic council or other appropriate elected body representative of faculty, for decisions affecting academic programs including admissions, content, graduation and related policies

³⁵ In Ontario, comprehensive degree-granting institutions are known as universities. In other jurisdictions, “college” is often used to describe primarily undergraduate degree-granting institutions. For the purposes of reviewing the applications of such colleges to operate as universities in Ontario, the criteria set out here will apply.

4. has policies, procedures and standards for admission, promotion, and graduation of students comparable to those of current Ontario universities
5. has a board of governors or appropriate equivalent that
 - functions in an open and transparent manner
 - has control over the institution's finances and administration
 - uses the institution's resources to advance its mission and goals
6. has a senior administration including a president, an academic vice-president (or equivalents) and other senior officers appropriate to the size of the institution and the range of its activities
7. has degree level qualifications as its core teaching mission
8. offers academic counselling and other student services appropriate to its programs
9. constitutes a self-critical, cohesive academic community with a proven commitment to quality assurance, as evidenced by systems for regular cyclical internal and/or external quality assessment of its academic programs
10. possesses a policy on faculty qualifications (hiring, retention, promotion, professional development, compensation and termination) appropriate to the degree programs offered and to the mission of creating and disseminating knowledge
11. maintains a sufficient number of faculty so that a minimum of 50% of an average degree student's experience will be with faculty members holding the terminal academic credential in the field or in a closely related field/discipline
12. provides learning and related resources (e.g. classrooms, library, laboratories, equipment, research tools) necessary for students to achieve the learning outcomes for degree programs
13. is committed to principles and practices of academic freedom and responsibility consistent with those adopted by Universities Canada at www.univcan.ca/media-room/media-releases/statement-on-academic-freedom
14. has policies supportive of equity, diversity and inclusion.

10.2 Subsidiary of a University

When a university that meets the criteria stated above wishes to extend its activities into Ontario through a legally separate agency, such as a wholly owned subsidiary company or corporation, that subsidiary operation will be considered to be a private applicant.

10.3 A New University

There are two ways to establish a new university in Ontario—a statute of the Ontario legislature or Ministerial consent. This passage relates only to proposals for new universities based Ministerial consent.

The criteria stated above describe a university in a state of mature operation and are not meant to screen out new institutions but to indicate the directions in which they must tend to justify use of the name “university.” Recognizing that new universities will start with a proposal rather than with an established operation, the Board will review a proposal for a new university in terms of how well

its plans, commitments and potential capacity meet the criteria stated above for a university. In addition, each proposed program will be required to undergo a degree Program Review. The Board may recommend that conditions be attached to a Ministerial consent to ensure that the institution develops appropriately in the context of both the proposal and the other documents submitted as part of the application.

11. Recognition of Prior Reviews

The Board acknowledges the potentially unique circumstances facing organizations that have, within the past two years, completed a thorough program or institutional evaluation with another quality assurance body or accreditation agency. Organizations in these circumstances may ask the Board to recognize the findings of a recent review in the formulation of its recommendations to the Minister.

11.1 Recognition of Prior Reviews

The Board has sole discretion to recognize the findings of another review. The Board must be satisfied that the prior review examined the program against standards and benchmarks similar to those established by the Board. The Board will also consider:

- how recently the review occurred
- the credibility of the reviewing body
- the criteria, standards, and procedures used in the assessment
- the qualifications, standing, and objectivity of the external reviewers involved
- evidence that the quality of the program will be maintained in Ontario.

11.2 Submission Requirements

The onus is on the organization to request that the Board recognize all or part of any relevant, prior review. In its request, the organization must submit the following information:

- a. A copy of a letter of application to the Minister of Colleges and Universities stating the program/programs for which consent is sought
- b. A copy of the signed “Applicant Acknowledgement and Agreement” form as provided in the *Directives and Guidelines for Applying for Ministerial Consent under the Post-secondary Education Choice and Excellence Act, 2000*
- c. A completed ministry [Summary of Application Form](#) (Appendix D)
- d. Documentation of the requirements (criteria, standards and procedures) of the review that occurred within the two years prior to the submission to the Board
- e. An analysis of the overlap in requirements of the Board and the previous review and any documents addressing the gap between the previous review and PEQAB criteria (if any)
- f. The complete report(s) resulting from the previous review
- g. Written permission for the Board to consult the reviewers or any professional, accrediting, or regulatory body named in the submitted documentation.

Renewals

If an accreditation review applied to the program, the role of the Program Evaluation Committee (PEC) may be played by a Panel from a professional accreditation agency (such as the Canadian Engineering Accreditation Board or the Council for Interior Design Accreditation) if

- the accreditation review is sufficiently similar to that of PEQAB and

- it covers most areas typically addressed in a PEC review.

In such cases an organization would supplement the self-study, tailored toward the professional accreditation, with a self-study against any relevant PEQAB criteria not sufficiently addressed through that accreditation review. The organization would also provide a response to the recommendation from the accreditation report.

In lieu of a PEQAB appointed External Expert Review Panel that is tasked with re-assessing samples of student work that reflect exemplary, average, and minimally acceptable performance from the terminal years of the degree program (see Appendices 12.4 and 12.5), student achievement can be demonstrated through reviews/evaluations of students work conducted by the relevant professional accreditation agency (such as the Canadian Engineering Accreditation Board or the Council for Interior Design Accreditation).

Requesting Consent Extensions

In some cases, the Minister may grant consent extension to align the consent renewal process with the timelines of the relevant accreditation agency. If reasonable and requested well in advance of the consent renewal date, PEQAB will normally support an organization in its appeal to the Minister to extend the consent duration in such circumstances.

12. Appendices

12.1 PEQAB Program Review On-Site Visit: Suggested Agenda Templates

How to use the templates

This template, meant as a guide, is offered to help institutions set up site visits that provide External Expert Review Panel (EERP) members with access to all the required institutional materials and representatives as well as sufficient time to conclude the Review and to address all related Standards and benchmarks. The template is based on the experience of EERPs and PEQAB Secretariat staff and reflects best practice.

As such this template also aims to create greater consistency amongst site visits including the timing (length and order), topics of discussion (in relation to PEQAB Standards) and attendees in the various discussions throughout the day while still providing enough flexibility to accommodate the unique circumstances of each institution and program. It remains the role of the applicant institution to prepare, and the Panel Chair to approve, the draft agenda in close collaboration with the applicant and PEQAB Secretariat staff.

GENERAL SUGGESTIONS

- **Content of sessions:** It is suggested to keep to the topics/areas of focus as recommended below.
- **Timing (length and order):** While it is suggested to keep the approximate order and time allotments, the length of various sessions may vary from review to review as each review can raise different issues. The order, apart from the opening and closing sessions, can vary and is often dictated by local needs:
 - Some topics/sessions lend themselves well to being moved, e.g. switching the meeting with the PAC with the one with students or changing the timeslot of the tour of the facilities.
 - Some Panels have had good experiences with moving either the meeting with students or the meeting with representatives of the PAC to the working lunch. These options should be discussed with the Panel Chair.
 - Some topics/sessions are more strategically placed and should not be moved unless clearly necessary, e.g. the review of institutional support for the program and program policies works well later in the day to allow the Panel to follow-up with senior management on any questions that may have been raised during the meetings with faculty or students.
- **Breaks:** Please allow for enough breaks in between sessions. This will also provide time to extend certain sessions if required.
- **Participants:**
 - It is advisable that the institution's program coordinator and/or Chair of the relevant area (i.e. the person(s) most directly responsible for the oversight of the program) be present during all sessions but the ones with PAC members, students and faculty members. Other participants noted are suggestions only.
 - The faculty, student and PAC sessions should be held "in camera" without any representatives of the institution other than the faculty members, students or PAC members respectively.

- Faculty: It is suggested that the institution ensures that the Panel speaks to a representative sample of faculty teaching in the program including full-time and part-time members of the faculty that are going to teach or have recently taught in the program.
- WIL: If the program has Work Integrated Learning (WIL) components, it is suggested that the WIL staff that is responsible for the program/cluster of programs be present at the site visit.
- **Renewals:**
 - Please provide an overview of the internal QA mechanisms/cycle and how these were applied to the program under review.
 - Samples of student work: As renewals require the review of samples of student work it is strongly suggested that Reviewers be provided access to samples of student work prior to the site visit to allow for a desk review of this work in advance. Where that is not possible a minimum of 90 minutes will have to be found in the agenda for the Panel to conduct this task. Note: For programs with a significant studio component such as interior design, it is suggested that, in addition to the desk review of written/drawn samples of student work prior to the site visit, time be set aside during the site visit to review further samples that are not easily evaluable electronically (e.g., exhibitions, models etc.)

OTHER BEST PRACTICES/RESPONSIBILITIES

Applicant

- Presentations by the applicant should be kept at a minimum to leave sufficient time for dialogue between the Panel and the institution.
- Some discretionary elements (shaded in grey) are identified, e.g.,
 - The policy review is only required if such review has not occurred at the institution for some time (review guidelines will identify this). Generally, policy questions can be addressed as part of the Institutional Support for Program and Program Policies session.
 - Participants for the Institutional Support for Program and Program Policies session will be determined by the Panel based on need.
- The concluding meeting/Exit Interview should be kept short and the program coordinator/program chair and/or key faculty should be invited. The Panel will give a high-level summary of findings. In addition to strengths, and as per 'PEQAB's no-surprises policy', the Panel will make the applicant aware of any Standards that are not met or nearly met and that will be raised in the Report. The Panel may also ask for any additional material to be submitted. PEQAB staff will address the timelines for the remainder of the Review at the end of the Exit Interview.

Panel

- Where possible, the Panel is encouraged to submit requests for additional information in advance of the site visit. It is understood that the Panel may see the need to require additional material during and after the site visit.
- It is also suggested that, in addition to the initial orientation, the Panel meet before the site visit with the PEQAB Senior Policy Advisor at least one additional time and usually just prior to the site visit. This will help focus on the key issues for discussion during the site visit.
- The Panel may want to consider holding an informal team meeting after the Exit Interview to discuss the next steps, including timelines and the approach to and distribution of responsibilities in writing the Report. This meeting could become part of the official agenda if desired.

PEQAB Secretariat Staff

PEQAB Secretariat staff attend, coordinate and facilitate all site visits by External Expert Review Panels. In particular, Secretariat staff

- Introduce the Panel and applicant at the various sessions.
- Actively facilitate discussion between the applicant and the Panel, as well as clarifying the interpretation of the Board’s Standards, benchmarks and procedures.
- Provide consultation and expertise on quality assurance and PEQAB’s Standards, Benchmarks and processes at site visits.
- Keep track of additional material to be sent to the Panel after the site visit.
- Outline the timelines and further steps in the program review.
- May participate in drafting some sections of the Panel Report and conduct a final review of the report, prior to sending it to the institution for response.

On-site visit

Note: All sessions with an asterisk* should be held “in camera”

12.2 Sample Course Schedules

In determining the course schedule, you will of course draw on instructors who have taught the various courses in the past, but the focus should be on instructors whom you anticipate will teach each section of the course going forward. (See Section 3.10 Integrity of the Process: Organization’s Obligations).

Sample Undergraduate Course Schedule 1 (for internal use only)

Year and Semester	Course Title	Total Core Course Semester Hours	Total Non-Core Course Semester Hours	Course Prerequisites and Co-requisites	Instructor(s)	Instructor’s Highest Qualification Earned and Discipline of Study
YEAR 1						
Semester 1	Intro to Biology 101, Section 1 ³⁷	48		Not applicable	Prof. Lee	PhD Biology
	Intro Biology 101, Section 2				Prof. Rinaud	PhD Biology
	Contemporary Canadian Literature (Liberal Arts)		56	Not applicable	Prof. Cooper Prof. Chan	PhD English PhD English
Semester 2	Biology 102 Section 1	48		Biology 101	Prof. Rinaud	PhD Biology
	Biology 102, Section 2				Faculty to be hired	MA minimum, PhD preferred
	Ethical Practices in Genetic Research		46	Philosophy 101	Prof. Andrews	PhD Biochemistry
YEAR 2						

³⁷ For courses which service a number of degree programs (e.g. “Intro to Biology” which has students from a number of different degrees) or other multi-section courses, estimate the number of sections of this course necessary for the number of students from the degree program under review and indicate instructors sufficient for this number of sections. Your designation of particular sections here (Section 1, Section 2 above) is of course arbitrary: it is only expected that the number of sections recorded here be sufficient to accommodate the number of students expected from the degree program under review. There is no obligation to ensure that students from particular programs be registered solely in particular sections of the course.

Semester 1		Biology 200	48		Biology 102	Prof. Patel	MSc Biology
Semester 2

Semester 2	Social Theory and Method II	48	Social Theory and Method I	Prof. Wong	PhD Anthropology
	Evolutionary and Ecological Theory and Method II	48	Evolutionary and Ecological Theory and Methods I	Prof. Smith	PhD Anthropology
	Semiotics and Communication	48	Descriptive Linguistics	Prof. Li	PhD Linguistics
YEAR 2					
Semester 1	Critical Issues in Ethnology	48	Not applicable	Prof. Patel	PhD Anthropology
	Forensic Anthropology	96	Not applicable	Prof. Williams	PhD Anthropology
Semester 2	M.A. Thesis			Faculty to be hired	PhD Anthropology
Total Program Hours		432			

³⁸ For courses which service a number of degree programs (e.g. "Intro to Biology" which has students from a number of different degrees) or other multi-section courses, estimate the number of sections of this course necessary for the number of students from the degree program under review and indicate instructors sufficient for this number of sections. Your designation of particular sections here (Section 1, Section 2 above) is of course arbitrary: it is only expected that the number of sections recorded here be sufficient to accommodate the number of students expected from the degree program under review. There is no obligation to ensure that students from particular programs be registered solely in particular sections of the course.

12.3 Policies

Provide the following policies and procedures as one searchable pdf; hyperlinks to documents on the institution's website will not be accepted. Institutions that have submitted this file in a previous submission, and that have not revised any elements of the file, need only confirm that PEQAB's current version of the institution's policy file is up to date.

Where there have been revisions or additions to institutions' policies, provide an updated PDF containing all current policies and procedures. In addition, indicate which policy(ies) and/or procedure(s) have been updated.

Please identify for each policy

- whether it is a draft or has been formally approved by the applicant’s governing body
- the date that the policy was adopted and
- the approving body.

Organization Review: Policies to be Submitted

<i>Policy/Procedure</i>
Administrative Capacity Policies and procedures pertaining to the development of academic policies, standards, and curriculum
Academic Freedom and Integrity Policies and procedures pertaining to <ul style="list-style-type: none">• academic freedom• academic honesty and the organization's plan for informing faculty and students about, and ensuring their compliance with, policies pertaining to academic honesty• the ownership of intellectual products of its employees and students• research involving humans and/or animals, and the management of research funds
Financial Stability Policies and procedures pertaining to the regular audit of the organization’s financial methods, performance, and stability and the format of annual internal financial reporting.
Dispute Resolution Policies and procedures pertaining to academic appeals, complaints, grievances and/or other disputes of students, faculty, staff, and administration
Organization Evaluation Policies and procedures pertaining to internal periodic review of the organization

Program Review: Policies to be Submitted

<i>Policy/Procedure</i>
Admission, Promotion and Graduation Policies and procedures pertaining to <ul style="list-style-type: none">• admission of students (including mature students)• the level of achievement required of students in the program for promotion within the program and for graduation• academic remediation, sanctions, and suspension for students who do not meet minimum achievement requirements• credit transfer/recognition (including any bridging requirements for certificate/diploma to degree ladder-ing)• entrance examinations and advanced placement based on prior learning assessments for “life experi-ence.”

Program Delivery

Policies and procedures pertaining to

- quality assurance of program delivery method(s)
- mechanisms and processes for student feedback regarding program delivery
- professional development of faculty including the promotion of curricular and instructional innovation as well as technological skills
- distance education if such components are part of the program

Capacity to Deliver

Policies and procedures pertaining to

- academic/professional credentials required of present and future faculty teaching courses in the program
- academic/professional credentials required of faculty acting as research/clinical/exhibition supervisors in the program
- the requirement to have on file evidence supplied directly to the organization by the granting agency of the highest academic credential and any required professional credentials claimed by faculty members
- the regular review of faculty performance, including student evaluation of teaching and supervision
- the means for ensuring the currency of faculty knowledge in the field
- faculty teaching and supervision loads
- faculty availability to students
- the professional development of faculty including the promotion of curricular and instructional innovation as well as technological skills, where appropriate

Internal Quality Assurance and Development

Policies and procedures pertaining to internal periodic review of the program

12.4 Guidelines for Collecting and Providing Samples of Student Work

Collecting Samples of Student Work

To facilitate the External Expert Review Panel's/PEC's review of samples of student work for evidence that the expected learning outcomes related to the Degree Level Standard have been achieved, the following is suggested:

That

- the institution select and sort student work into what it considers exemplary, average, and minimally acceptable performance categories allowing External Expert Review Panel members/ PEC members to select samples from among these three categories
- samples be from the terminal stage of the program
- samples are from a range of courses and a variety of instructors and ideally include the capstone project and are representative of the program being reviewed
- samples include student work from the different modes of delivery where applicable.
- all personal identifiers be removed from the samples of student work³⁹
- the institution provide the details of the assignments (i.e., a copy of what the student receives) and, where available, the rubrics against which the assignments were graded

³⁹ Anonymizing the samples of student work is strongly suggested. In the case of samples of student work that cannot be anonymized, such as with some types of visual or applied artwork, PEQAB would allow personal identifiers to be included if an organization has an internal policy or appropriate disclosures ensuring the students' consent to share samples of student work, with their personal identifiers included, with an External Panel.

- if possible, samples be unmarked (i.e. void of grading and instructor comments)
- the sample size be large enough for random selection, i.e. that the sample size from the core courses in the program be at least 20% of the total number of students in the program (e.g., 20 samples if 100 students are enrolled in the program under review) and in no case less than 15 samples.

Non-core/ breadth courses (if applicable)

- if the Review includes the non-core/breadth courses, the institution provide samples from non-core/breadth courses offered to students in the program under review and preferably from courses in which students from the program under review are typically enrolled
- the sample size from the non-core/breadth courses be at least 10% (or a minimum of 12 samples, whichever is greater) of the total number of students in the program under review.

Providing Samples of Student Work and Student Privacy

- The Secretariat strongly suggests the distribution and re-marking of samples of student work prior to the site visit to allow for a desk review in advance of the site visit. Where that is not possible, a minimum of 90 minutes will have to be found somewhere in the agenda for the External Expert Review Panel member(s) to conduct this crucial task.
- In the alternative and when/if practicable, the institution may give External Expert Review Panels/PECs appropriate/limited access to an area of the institution's learning system which has been pre-populated with anonymized student work. This would allow External Expert Review Panels/PECs to select at random samples of student work submitted to courses in the terminal years of the program. The work should be compiled in such a way as to preserve student anonymity and to provide External Expert Review Panels/PECs with the other aspects/context of the work (assignment, course syllabi etc.) specified above.
- In the absence of existing disclosures, the Secretariat advises all degree granting institutions quality assured by the Postsecondary Education Quality Assessment Board to notify students of the potential use of samples of student work on their websites. The Secretariat suggests the following language, developed in consultation with the Office of the Information and Privacy Commissioner of Ontario: *Anonymized copies of student work (essays, exams and other) submitted in courses may be made available to the External Expert Review Panel member(s) as a part of the quality assurance process for academic degree programs in Ontario.*

12.5 Other Assessments of Learning Outcome Achievements of Students/Graduates

As a supplement to the reviewers marking random samples of student work that reflect exemplary, average, and minimally acceptable performance from the terminal years of the degree program (as per PEQAB's current *Guidelines for Samples of Student Work*, Appendix 12.4), student achievement can also be demonstrated through:

- a. Recognized, comparable, or scalable evaluations of critical thinking, problem-solving, communication skills of students graduating from the program, and/or
- b. Other learning outcomes assessment models/management systems, as proposed by the institution.

If assessments in addition to reviewing samples of student work are chosen to demonstrate student achievement, EERP/PEC members should be instructed to review/comment on the learning outcome achievements of students/graduates based also on the option chosen. It is also suggested that this option be discussed with the PEQAB Secretariat prior to the site visit.

12.6 Principles in Reviewing Bridges to Degrees

Institutions wishing to provide bridges into any of their programs should adduce all relevant evidence. PEQAB's criteria for approving bridges requires institutions to show how they are addressing **gaps 1** and, for undergraduate programs, **2** and how they commit to measuring **gap 3** (see below).

1. **The content and skills gap:** if the first two years of the degree has developed skills and knowledge different from the two years of the diploma, a make-up, reach-back, or bridge is required to cover any remaining gap.
2. **The breadth gap** (for undergraduate programs): usually students in the diploma will have taken no degree level breadth courses in the first two years, and this presents a gap that needs to be addressed to ensure transfer students still meet all degree level learning outcomes. To avoid the undue burden that transfer students would face if they were to complete the eight degree level breadth courses, that are typical, in addition to their full 'core' load over the third and fourth year, it is permissible to count non-core diploma level courses at full value towards the 20% breadth requirement. These can, however, only satisfy the 'basic' or introductory level and not the requirement for upper level breadth courses.
3. **The degree of difficulty gap:** in lieu of an additional element to this bridge, organizations need to separately track diploma to degree students through the third and fourth year of the degree program. If their persistence, graduation rates and final marks fall significantly below those of students who went through all four years in the degree program, additional elements to bridge the degree of difficulty into third year need will to be introduced.

12.7 Principles for Majors

Introducing Majors

A single main degree title may be modified by terms reflecting one of several majors offered within the degree program; for example, Honours Bachelor of Financial Services: Insurance and Honours Bachelor of Financial Services: Financial Planning. A major is the subject that is the main focus of a student's degree. (i.e. the concentration of a bachelor's degree) such as Bachelor of Science with a major in Biotechnology or a Bachelor of Commerce (BCom) with a in Human Resources Management.

A Major area should encompass at least 30% of the—typically 12 of 40 semester courses or the equivalent in course unit/modules throughout the program. Majors can be shown on the testamur (e.g. Bachelor of Business Administration (Honours) International Business Management in Supply Chain Management).

Existing Programs: Institutions can move existing programs to a major model (i.e. combining existing programs under one consent with a major or majors identified in the nomenclature options). For example, a Bachelor of Business Administration (BBA) (Management Studies), a BBA (International Business) and a BBA (Supply Chain Management) programs could become one program with three majors requiring one consent. To change over to a major model Colleges will have to either

- apply for an amendment to the consents in question⁴⁰
- request to move to a major model in the context of the next renewal where a program that is proposed to become part of a program with streams/majors is reviewed.

New Programs/majors:

- Institutions applying for new programs with majors can apply for them as one program. The application will have to clearly identify the various majors, addressing all relevant PEQAB criteria (most importantly the Degree Level, Program Content and Capacity to Deliver Standards) for each of the majors.
- Institutions applying to add a new major to an existing program can do so by applying for an amendment to an existing program, submitting all pertinent information.

The Ministry remains the authority on determining what changes are permitted during the period of consent and, as such, determines when to refer requests for changes and amendments -- including to (add) majors --to the Board for Review.

12.8 Faculty CVs

- Attach CVs of all faculty and professional staff who will be assigned to deliver the **core courses and other core-related requirements** in the program.
- Ensure that all CVs submitted with this application include at least the following:
 - name
 - earned degrees (specify discipline area and label degrees in progress for fewer than 7 years “in progress”)
 - scholarly and professional activities⁴¹
 - employment history
 - research funding
 - publications.
- Confirm that the organization has on file and available for inspection, for all faculty and staff whose CVs are included in this submission, signatures that attest to the truthfulness and completeness of the information contained in their CV and agreeing to the inclusion of their CV in any documents/websites associated with the submission, review, and final status of the application.
- Ensure that the CVs are either searchable by name or include a table of contents.

⁴⁰ PEQAB could explore an expedited process --modelled after the expedited process that was in place when most college programs adopted the Honours nomenclature-- for institutions interested in changing over existing consent programs to a major model

⁴¹ Please see benchmark 2c of the Capacity to Deliver Standard in this *Manual* for an elaboration of activities considered by the Board as evidence of scholarly, professional, or creative activities sufficient to ensure currency in the field.

12.9 Documentation commonly submitted for Non-Core/Breadth

- Attach course outlines/teaching and learning plans (TLPs) for all non-core courses in the format used at your institution.
- Attach CVs of all faculty and professional staff who will be assigned to deliver the non-core/breadth courses and any other breadth-related requirements.

This can be omitted if an institution has gone through a regularized non-core/breadth capacity review (available since November 2016) and the Board has recommended that the institution be

- exempted from a non-core/breadth review for degree programs for a period of seven years, and
- permitted to amend its non-core/breadth offering without the necessity of seeking amendments to its consents.

Likewise, institutions that have submitted non-core courses in a previous submission, and that have not revised any non-core/breadth elements, can substitute the submission of non-core course outlines and breadth faculty CVs with a statement in the submission that the breadth course outlines on file with PEQAB are current. Institutions proposing new non-core requirements without exemptions around breadth should submit an updated file and identify the new outlines.

12.10 Requirement for Internal Organization Review

Please provide evidence of revisions and actions taken as the result of the implementation of the organization review policy to show that it achieves its intended aim of continuous improvement of the organization. The self-study and the report on program commitments, conditions, changes, developments and improvements will usually be the main vehicles to provide this evidence.

Self-Study

The self-study should be undertaken by administrators, faculty members and staff of the organization based on evidence relating to organizational performance against the criteria stated below, including strengths and weaknesses, desired improvements and future directions.

The self-study should include a thorough, frank and accurate analysis and be based on evidence relating to organizational performance against at least the following components, including strengths and weaknesses, desired improvements, and future directions

- the continuing adequacy of the organization's
 - mission statement and academic goals to accurately identify the academic character and aspirations of the organization
 - governance structure and qualified administrative capacity necessary to organize and manage a competent institution of higher learning with appropriate participation by qualified academic staff and in consultation with students
 - ethical conduct and businesses practices in its dealings with administrative, academic and support staff, students, regulators, suppliers, and the public in general

- the continuing accuracy and completeness of the institution’s public reports, materials, and advertising and the key information about the organization and determining that it is readily available to potential and current students
- organization’s commitment to, and the continuing appropriateness of, its academic freedom and integrity policies in that they
 - recognize and protect the rights of individuals in their pursuit of knowledge
 - clearly define the ownership of the intellectual products of employees and students
 - uphold formal ethical research standards
 - foster and enforce academic honesty
- the continued financial stability of the organization and of the adequacy of its financial resources to provide a stable learning environment and to ensure that students can complete the program with the stated learning outcomes
- the continuing appropriateness of the organization’s dispute resolution policies and practices.

Organization Evaluation Committee (OEC)

It is suggested that the OEC be comprised of at least two external subject-matter experts —one of which should be the OEC Chair. A majority of the members must have relevant expertise in the degree granting environment, be from outside the institution and be free of any conflict of interest.

The OEC evaluates the program based on the self-study, the organization’s report of commitments/conditions, changes, developments and improvements (see below) and a site visit.

Report of the OEC and Applicant Response

The overarching purpose of the organization evaluation committee report is to review the appropriateness and quality of the organization’s operation, policies, and procedures, and to recommend any changes needed to strengthen that quality. The report must be addressed to the senior administration and be shared with the academic council and governing Board, together with a plan of action responding to the recommendations in the report.

Organizational Commitments, Conditions, Changes, Developments and Improvements

In addition to the self-study, unless imbedded in it, please provide a report on any commitments based on previous reviews and any changes to the organization and/or evidence of continuous organizational improvements.

Executive Summary

Include a brief executive summary of the report highlights and any changes and developments in the last 5 years and/or since the last Board review.

Report on Commitments/Status of Action Plan

List any commitments made during the last Board review of the organization and report on how these were addressed. Include commitments made in the submission (e.g., to execute a particular strategic plan) and also those made during the Board’s review. Address significant organizational changes and provide an update (if applicable) on the status of the institution’s action plan that responds to the findings of the self-study.

Additional Information/Context

Provide any information pertinent to the review of the program and the institution that has not been presented in other sections of the Organization Review submission. This could include

- institutional or program context
- information on future plans or developments of the institution or program
- information on special challenges or developments over the period of consent
- any additional (proposed) changes that have not been addressed in the report on commitments, the self-study, or the action plan and the rationale for these changes.

12.11 Requirement for Internal Program Review

Please provide evidence of revisions and actions taken as the result of the implementation of the program review policy to show that it achieves its intended aim of continuous improvement of the program(s). The self-study and the report on program commitments, conditions, changes, developments and improvements will be usually the main vehicles to provide this evidence.

Self-Study

The self-study should be undertaken, with student input, by faculty members and administrators of the program and it should indicate the authors of the self-study and any contributors.

The self-study should include a thorough, frank and accurate analysis and be based on evidence relating to program performance against at least the following components, including strengths and weaknesses, desired improvements, and future directions

- the consistency of the program with the organization's mission, educational goals, and long-range plan
- the learning outcome achievements of students/graduates by comparison with
 - the program's stated learning outcome goals and standards
 - the Degree Level Standard⁴²
 - the opinions of employers and students/graduates
 - the standards of any related regulatory, accrediting or professional association
- student satisfaction levels, graduation rates, and student retention rates
- the relevance of the program to the field of practice it serves
- the appropriateness of the method of delivery, curriculum and admission requirements (i.e., achievement level, subject preparation) for the program's educational goals and standards
- the adequacy of the methods used for evaluating student progress and achievement
- the adequacy of existing human, physical, technological, and financial resources
- faculty performance, including consideration whether all faculty
 - have, where relevant, professional credentials and related work experience

⁴² Student achievement can be demonstrated through a) The current PEQAB procedure (see *Guidelines for Samples of Student Work*) of External Experts re-marking random samples of student work that reflect exemplary, average, and minimally acceptable performance from the terminal years of the degree program, and/or b) Recognised, comparable, or scalable evaluations of critical thinking, problem-solving, communication skills of students graduating from the program, and/or c) Reviews/evaluations of students work conducted by the relevant professional accreditation agency (such as the Canadian Engineering Accreditation Board or the Council for Interior Design Accreditation), and/or d) Other learning outcomes assessment models/management systems, as proposed by the institution.

- hold an academic credential at least one degree higher than that offered by the program in the field or in a closely related field/discipline⁴³
- engage in a level of scholarship, research, or creative activity sufficient to ensure their currency in the field.⁴⁴

The PAC should formally endorse the curriculum as part of the Self-Study.

Program Evaluation Committee (PEC)⁴⁵

The applicant's appointed PEC members should possess qualifications, professional qualities, current subject-matter expertise and a reputation that engender the confidence of the PEQAB Board, the Minister, the public, accrediting bodies, relevant regulatory bodies and other degree granting institutions. In addition, all members should be free of any conflict of interest, in accordance with conflict of interest guidelines. It is also recommended that the institution strive for diversity in the composition of PEC members.

Required

- Two external subject-matter experts** who are senior academics with strong track records in their fields —one of whom serves as the PEC Chair
- Each of whom holds an advanced academic credential (normally at the terminal level in the field) closely related to the subject area under review
- Not more than one of whom is based in the Ontario College system.

For these two, strongly recommended:

- Demonstrated strength and experience in teaching and learning, which may include teaching recognition, affiliation or work with teaching and learning centres, curriculum design, and/or quality assessment experience (e.g., as appraisers for accrediting bodies or as reviewers of degree programs) and/or senior administrative experience
- A record of active scholarship in their disciplines and/or in the scholarship of teaching & learning
- Currently or recently associated with the same kind of program and offering credentials at least at the same level as that under Review.

And that the two

- Not be from the same institution and

⁴³ Exceptions must be a) based on the relative scarcity of related postsecondary credentials or other supporting circumstances (e.g., in studio-driven disciplines or when a faculty member has obtained significant professional and practical skill within industry or area itself that fully qualifies him/her to teach in a particular program), b) justified in writing and approved by the Vice-President Academic.

⁴⁴ In reviewing faculty members' currency and engagement with scholarship, research, or creative activity, the following may be considered, provided that these contributions are in a form (in a phrase adapted from Boyer) "subject to critical review and allowing use/exchange by other members of the scholarly community." In all cases, such contributions may take digital form. In general, the Board seeks evidence that faculty are intellectually engaged with developments in their fields, including but not limited to a) publishing and/or reviewing professional publications in their fields, b) participation and/or presentations at provincial, national, and international conferences, competitions, or exhibitions in their fields, c) engagement with the scholarship of pedagogy in their fields, d) participation in regulatory and accrediting association workshops, degree audits, or related work in their fields, e) engagement in basic and/or applied research, labour market research, and/or related industry needs assessments, f) application of conceptual knowledge to current practice in their fields, such as reports to industry or consulting work, g) creative contributions to their fields through exhibitions or related forms, h) development of case studies in their fields.

⁴⁵ In certain circumstances the PEC may be replaced by a panel from a professional accreditation agency (such as the Canadian Engineering Accreditation Board or the Council for Interior Design Accreditation) if a) the accreditation review is sufficiently similar to that of PEQAB and b) it covers most areas typically addressed in a PEC review. In such cases, an organization would supplement the self-study, tailored toward the professional accreditation, with a self-study against PEQAB criteria not sufficiently addressed through the relevant accreditation criteria.

- At least one be new to the Review of the program (i.e. an individual who has not reviewed the program in the past seven years).

Optional/Desirable:

- **One student or recent graduate** from the degree program under review or from another program at the same institution or from a comparable program at a different institution
- **One senior academic peer** internal to the Organization but outside the program or a member of the POPDOG (the Private and Out of Province Degree in Ontario Group) external to the institution.

The PEC evaluates the program based on the self-study, the program's report of commitments/conditions, changes, developments and improvements (see below) and a site visit during which members of the committee normally meet with faculty members, students, graduates, employers, and administrators to gather information.

Report of the PEC and Organization Response

The overarching purpose of the PEC report is to review program quality and recommend any changes needed to strengthen that quality. The report should be shared with the academic council, governing board, faculty members, and students in the program.

Please respond to the recommendations in the PEC report⁴⁶ with an action plan.

Program Commitments, Conditions, Changes, Developments and Improvements

In addition to the self-study, unless imbedded in it, please provide a report on any commitments based on previous reviews and any changes to the program/evidence of continuous program improvements.

Executive Summary

Include a brief executive summary of the report highlights and any changes and developments in the program since the program received its most recent consent.

Report on Conditions and Commitments/Status of Program Action Plan

List any condition(s) or commitment(s) from the last Board review and report on how these were addressed and provide an update (if applicable) on the status of the institution's action plan that responds to the findings of the self-study.

Program Developments

Provide any information pertinent to the review of the program that has not been presented in other sections. This could include

- information on future plans or developments of the institution or program
- information on special challenges or developments over the period of consent
- any additional (proposed) program changes (e.g., a new pathway or nomenclature) that have not been addressed in the report on commitments, the self-study, or the program action plan and

⁴⁶ or Accreditation report where applicable.

the rationale for these changes (e.g., changes prompted by modifications to the regulatory framework for a profession).
