| HEALTH       | Honours Bachelor of Health Sciences - Athletic Therapy                     | Courses that include CATA identified core competencies will be taught by faculty holding, at minimum, an MSc in a health-related discipline AND CAT-C certification. Some core courses may involve rehabilitation science, kinesiology, human kinetics, biomechanics, or other related disciplines—some of which may not involve CAT-C competencies or requiring such certification in which case an MSc in a health-related discipline would be the minimum requirement. Core courses that fall outside CATA requirements will be taught by faculty holding a PhD in kinesiology, physiology, exercise preparation, or related fields.                                                                                                                                                   | 17-Jun-25 |
| LAW          | Honours Bachelor of Paralegal/ Bachelor of Paralegal                       | Master's level - LLM                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | 17-Jul-18 |
|              | Honours Bachelor of Public Safety                                          | A Master's degree in Disaster and Emergency Management, Public Safety or in a closely related field/discipline AND has demonstrated 5 years of experience in the field.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 31-Mar-26 |
| LIBERAL ARTS | Honours Bachelor of Journalism                                             | Master's in Journalism or related field (e.g., Communications, Media Studies, etc.)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 26-Oct-10 |
| LIBERAL ARTS | Indigenous course(s)                                                       | Demonstrated knowledge/expertise in the relevant facets of Indigeneity, that is of First Nations, Métis, and/or Inuit cultures, to be taught in the course. In this case, PEQAB also waives the requirement under the benchmark "b) hold an academic credential at least one level (one column on the OQF) higher than that offered by the program" of the Capacity to Deliver Standard based on the footnote that "19 Exceptions to any benchmarks pertaining to faculty must be a) based on the absence of a related program credential in a university or other extraordinary circumstances b) justified in writing and approved by the Vice-President Academic or equivalent. The signed documents must be kept for review at the time of any request for consent or renewed consent. | 27-Jun-23 |
| SCIENCE      | Honours Bachelor of Science (Culinary Arts and Food Science)               | Research Chef or Culinologist with a Master's level training in a related field.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 1-Oct-19  |
| SCIENCE      | Bachelor of Science (Building Conservation)                                | Red Seal Certification for technical courses and Master's in a related field for non-technical                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 22-Sep-22 |
| TECHNOLOGY   | Honours Bachelor of Digital Experience Design                              | Master's in Design, Digital Experience, Digital Media or related.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 16-May-17 |

|            |                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |
|------------|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| TECHNOLOGY | Master of Science in Flight Testing        | Significant flight testing experience and a related Master's or Doctoral Degree (in the field of flight test or in a closely related field/discipline). Examples include: MSc Flight Test Technology; MSc Electrical Engineering; PhD Mechanical and Aeronautical Engineering; PhD Mechanical and Aeronautical Engineering; MSc Defence Technologies; MSc Electrical Engineering; MSc Safety and Accident Investigation (Air Transport); MSc Mechanical and Aeronautical Engineering. | 13-Dec-22 |
| TECHNOLOGY | Honours Bachelor of Landscape Architecture | Faculty teaching core courses: Master of Landscape Architecture (MLA), OR Bachelor of Landscape Architecture (BLA) plus a Master's or PhD in a related field (e.g. architecture, engineering, environmental science, planning, design, or education). Preference will be given to those who are members of the Canadian Society of Landscape Architects (CSLA) or an equivalent professional institution (e.g., Professional Engineer, Registered Professional Planner, Architect).   | 17-Jun-25 |
| TECHNOLOGY | Honours Bachelor of Brand Design           | The applied, design curriculum (studios, production and type courses) will be delivered by a candidate holding a Master of Design for applied/ design courses (i.e., studios, production, etc.). Master's level or PhD for theoretical/ research courses.                                                                                                                                                                                                                             | 23-Jul-19 |

\* all faculty teaching in the program hold: Honours bachelor's degree in the field or in a closely related field/discipline (e.g., Digital Media, Animation, Game Design, Computer Science, Interactive Design, Visual Effects) plus one of the following: A graduate certificate/diploma in the field or in a closely related field/discipline (e.g., Digital Media, Animation, Game Design, Computer Science, Interactive Design, Visual Effects); professional certifications/credentials in the field or in a closely related field/discipline or area of instruction, where applicable; significant industry experience in a senior technical/creative role AND have demonstrated excellence through at least one of the following: industry awards or recognition; leadership of major projects/productions; development of innovative tools or technologies.
