

PEQAB Policy 14. Use of the Term University: Out of Province Institutions

For out of province institutions, the Board has recognized, for operations under consent in Ontario, these institutions' existing names in their home jurisdictions, including the term "University." If the Board receives a Ministerial referral regarding such an out of province institution which specifies review of the term "University" and that institution is quality assured in its home jurisdiction by a registered quality assurance agency, the Board will normally recognize the outcomes of the practices of that other registered quality assurance agency including its recognition in its home jurisdictions of an institution as a "University."
