

## **PEQAB Policy 2. Recommendations to the Minister for Consent Policy & Procedure**

In order to receive a Recommendation for consent from the Board, the application must meet all the Board's Standards relevant to that kind of Review. There are three circumstances in which an application can be deemed to meet a Standard:

1. The Board, considering the advice of the External Expert Review Panel (EERP), deems the Standard to be met in the application as submitted.
2. The Board, considering the advice of the EERP, deems the Standard to be met, based on credible commitments made by the applicant during the course of the Review.
3. The Board, considering the advice of the EERP, recommends to the Minister a condition of consent, which when met, normally via a Report Back to the Board, will meet the Standard.

### **Procedure**

The Board will make determinations of "Met", "Conditions of Consent", "Commitments" and "Denial" according to the then current Decision Tree at <https://www.pegab.ca/Publications/Decision%20tree%20for%20Board%20v%2003.pdf>
