

PEQAB Policy 3. Recognition of Other Quality Reviews

PEQAB acknowledges the results of other quality assurance agencies, accreditors and regulators: PEQAB will not require that an applicant be assessed on a PEQAB criterion, if that applicant has been positively assessed sufficiently recently on a sufficiently similar criterion by another reputable quality assurance agency, accreditor or regulator. At the request of an applicant, PEQAB will receive from another quality assurance agency, accreditor or regulator and consider evidence of the applicant's having met such a criterion. At the request of a PEQAB consent-holder, PEQAB will provide another quality assurance agency, accreditor or regulator with such evidence from PEQAB's own Reviews.
