

PEQAB Policy 4. Degree Programs of PEQAB-Referred Consent-Holders at Sites Outside Ontario

Recognizing that Ministerial consent pursuant to a PEQAB Recommendation applies only to the specific sites identified in the Letter of Consent, PEQAB also recognizes that some consent-holders may seek to offer these same PEQAB-recommended degree programs at sites outside Ontario. If that site falls under the mandate of a local quality assurance body, at the request of the consent-holder, PEQAB will provide that quality assurance body with evidence of that degree program having met PEQAB Standards, as per the PEQAB Policy 3. Recognition of Other Quality Reviews. If the site does not fall under the mandate of a local quality assurance body, PEQAB requires that the consent-holder not present the degree program as having been relevantly quality assured by PEQAB but rather that the applicant seek quality assurance through an internationally focused quality assurance body such as the Quality Assurance Agency for Higher Education (QAA).
